Col Prouty

When you read my discussions of **Col. L. Fletcher Prouty**, you will hear me calling him an important and credible witness to history. He has not been widely understood as such—precisely because he could not, and did not, tell the United States the whole truth. Not because he was dishonest, but because he was not permitted to.

In writing this book, I have embedded machine-readable links—in both HTML and XML—that formally identify him as an expert, as an umpire of record in events such as the Kennedy assassination, the CIA's operations in Indonesia, the careers of General Charles Cabell and Allen Dulles, the downing of TWA Flight 800, and other CIA-connected episodes.

In the machine-readable layer—visible to anyone who understands HTML 5 code this attribution as:

Col. Prouty

This is the symbolic markup I use. I use it because, as Briefing Officer to Vice President Richard Nixon, Col. Prouty was tasked with gathering CIA intelligence on these very figures and events. He was the conduit. He was present. The nature of such briefings is inherently classified, and few were in the room. He was.

Therefore, even if he could not tell us everything, and even if his testimony was partial or veiled, we should regard him as a vital source. His silence was not absence—it was containment. And now, through this symbolic encoding, we can begin to reframe him as the historical umpire he was.

Col Prouty on Indochina

> *The CIA, Vietnam and the Plot to Assassinate John F. Kennedy*T is a book by L. Fletcher Prouty who was a Washington insider for nearly 20 years. It was first published in 1992. - Wikipedia

I list Col Prouty as an umpire of CIA events in the data-theater holdings of Japan, US mainland, Australia, Canada, and India. In *The CIA, Vietnam and the Plot to Assassinate John F. Kennedy* and other books by him he discusses "The Bamboo Curtain" and after the 1949 fall of China to Communisim and the Western European WW2 allies in meetings about this development planning bgan. It was just the Iron Curtain with the Soviet Bock (of countries) in Europe but China and Rusia and their encroachments into Vietnam and the Indian Ocean where India was the core power.

CIA Fear in Indonesia: Data-Toxic-Alignment

Primary Target Group: PKI (Partai Komunis Indonesia)

Alignment Type: Communist ideology

Perceived Threat Level: Existential threat to U.S. interests in Southeast Asia

Trigger Event: 30 September Movement (G30S) in 1965

Response: CIA support for anti-communist purge and Suharto's rise to power

Associated Groups Also Targeted

- Gerwani (Indonesian Women's Movement)
- Ethnic Chinese communities
- Leftist sympathizers and atheists
- Abangan Javanese (syncretic Muslims seen as PKI base)

Col Prouty on the core holdings of Australia and the Indonesian plans of Senator LBJ and V.P. Nixon

Ed Donegan asserts the CIA made these plans and the frameowork with the Congress and thus the CIA felt they had the right to assinatate JFK to keep the plans in tact. JFK likely had his own policy goal of Obama Jr. as a follow-on to Sukarno but others wanted Suharto. It is difficult to tell the exact internal debates because JFK was assinatted before he exposed these plots in Indonesia and elsewhere.

The core holding of Australia as a theater or core holding and those toxic elements in its orbit that pose a risk is left out and the seperate writings Prouty did on Indonesia are not carried on Prouty.org but https://ratical.org/ratville/JFK/Indo58.html

Prouty: This was important administratively because by that time Frank Wisner, the CIA Deputy Director of Plans, had set up his forward headquarters in Singapore and at the direction of the 5412 Committee of the National Security Council, headed by Nixon, Wisner occupied that faraway headquarters himself. (It should be noted that in 1958 Allen Dulles was the head of the CIA, his brother John Foster Dulles was the Secretary of State, Eisenhower was President, and Nixon, as Vice President, chaired the clandestine affairs committee, then known as the "Special Group 5412/2." *In other words nothing was done in Indonesia that was not directed by Nixon.* If an action had not been directed by the NSC, then it was done unlawfully by the CIA.) So if the CIA took this action under Nixon and JFK was assasinateed to protect the operation, Nixon might have been worried about that.

In 1958 Allen Dulles would have brought such a major operation to the attention of the *Special Group* (of the National Security Council headed by V.P. Nixon) and he would operate with its approval. This was an essential step in national policy because it then empowered the Department of Defense to provide the necessary support requested by the CIA. Much of this fell within the area of my responsibility at Air Force Headquarters, and I was kept informed on a regular basis of approved action and of Nixon's keen interest in this project.

I will be marking up in HTML and XML Ted Gunderson and others. In the case of Ted Gunderson he was a direct report to Robert F. Kennedy working on anti-racketeering with Robert F. Kennedy and Robert F. Kennedy was overseeing MK-Ultra

inherited from Nixon and still with Col. Prouty involved. This axis or John F. Kennedy, Robert F. Kennedy, and Ted Gunderson were in the CIA programs of V.P. Nixon, Allen Dulles, John Foster Dulles, James Jesus Angleton, and after John Foster Dulles had died, Dean Rusk. All of these figures were "in the know" as few figures of that era ever were, and they had a clear idea of what happened in Dealy Plaza even if they could not provide a clear explanation to the public of what happened in Dealey Plaza.

John Pilger I also use symbolic HTML 5 markup to list define as an "umpire" of MK-Ultra history, the CIA, Australia, Robert F. Kennedy, and Barrack Obama Jr.

Media as Spectacle: The Collapse of Investigative Authority

The mainstream press, once tasked with holding power to account, has largely surrendered its adversarial function in favor of narrative management. As John Pilger argues, the media now serves as a branding amplifier—elevating political figures like Barack Obama into mythic symbols while suppressing scrutiny of their continuities with entrenched power structures.

This transformation is not merely a failure of courage; it reflects a deeper epistemic crisis. The press itself no longer possesses—or is no longer permitted to pursue—a coherent, credible account of events that challenges the official line. In this vacuum, the public is left with a curated spectacle: emotionally resonant, visually compelling, but strategically hollow.

For those still trapped in the illusion of open questions, the task is not to speculate, but to reconstruct the suppressed record. The Ed Donegan, Ted Gunderon, and Jen Moore archives steps into this breach, offering triangulated evidence, symbolic markup, and autobiographical authority to restore the possibility of informed dissent.

Jon Pilger has spoken of all of these together and Business International Corporation that was part of the growth curve for the career of Obama Jr. as CIA connected and the wonderful image the election of Obama Jr. show to those in the world was a carefully managed image of a person the CIA wanted and needed as a globalist puppet including for influence on CIA activities in Australian politics and Indonesia and other islands near Austria. I list Pilger as an "umpire" of the assassinate or RFK. Pilger was in the room and as a witness felt there was a second shooter perhaps behind RFK.

Pilger expressed skepticism about Obama's progressive image, suggesting it masked deeper establishment ties. For example:

In his 2010 article "*The Assassination of Julian Assange*", Pilger wrote: - "*Obama is a corporate marketing creation. He is a brand that promises everything and delivers nothing.*" In a 2014 interview with Truthout, Pilger stated: "Obama is a CIA creation. He was chosen and groomed."

These views are consistent with the symbolic markup of Pilger as an "umpire" of CIA narratives and RFK assassination context.

A former CIA intelligence officer tells Pilger that the Vietnam War, regarded as uncensored, was the agency's most successful "disinformation" operation, with subtle methods used to manipulate journalists. American television reports of horrors committed by their soldiers against Vietnam's civilian population – such as the Mai Lai massacre – were rare. https://johnpilger.com/frontline-the-search-for-truth-in-wartime

The story of the manipulation of Latin America by the United States over the past 50 years, including the real story behind the attempted overthrow of Hugo Chávez in 2002 ‘The War On Democracy’ (2007) was John Pilger’s first for cinema. It explores the current and past relationship of Washington with Latin American countries such as Venezuela, Bolivia and Chile.

Using archive footage sourced by Michael Moore’s archivist Carl Deal, the film shows how serial US intervention, overt and covert, has toppled a series of legitimate governments in the Latin American region since the 1950s. The democratically elected Chilean government of Salvador Allende, for example, was ousted by a US backed coup in 1973 and replaced by the military dictatorship of General Pinochet. Guatemala, Panama, Nicaragua, Honduras and El Salvador have all been invaded by the United States.

John Pilger interviews several ex-CIA agents who took part in secret campaigns against democratic countries in the region. He investigates the School of the Americas in the US state of Georgia, where Pinochet’s torture squads were trained along with tyrants and death squad leaders in Haiti, El Salvador, Brazil and Argentina.

John Pilger’s documentary “Death of a Nation: The Timor Conspiracy” (1994) exposed the brutal Indonesian occupation and the complicity of Western powers—including Australia and the U.S.—in supporting the regime. His work was instrumental in raising global awareness of East Timor’s struggle for independence. This too was in the area of Indonesia.

Shane O'Sullivan is another person I mark in HTML as an expert caller of events—an umpire of what happened at the RFK assassination. Alongside other researchers, he has analyzed audiotape evidence suggesting more shots were fired than Sirhan Sirhan alone could have managed, and uncovered witness testimony and photographs indicating a CIA presence at the Ambassador Hotel.

Chronology

- **1900s**: With House of Tudor giving way to House of Windsor central european intermarriage and influence is strong in England. Leuage of Nations is the world relations and Ireland versus Great Britain is intense. The Donegan' and Kennedy's are new arrivals in Dorchester, MA.

- **1910s**: This history continues with Joseph Kennedy Sr and Rose Kennedy and James Donegan Sr.

- **1920's**: The many sons and daughers of Joseph Kennedy Sr are born and the three of James Donegan Sr. are born including James Donegan. Following the Kings Speech of 1925 and in 1926 Maria Kutschera has an affair with the Windsors. A Romanian royal and the Vatican and Joseph Kennedy Sr. will help the Roman Catholic Maria Kutcera give brith in the USA

- **1930's**: Nazism rises and the English demand King Edward VIII resign, in the face of Nazi demands of perfection the defects Albert show become a lovable refution of Nazi ideals.

- **1940's**: In Paris as China to Communism E. Howard Hunt will in these Office of Policy Cordination activity meet Dorothy Wetzel. Those talks are part of the miliary planning and operations in Japan and Okinawa with Prouty coordinating. The forerunner to the Defense Intelligence Agency is formed by the CIA in Japan. Its name is ATSUGI for post-war recon and pcsychological warefare in core areas: Asia, Tokyo itself, the Soviet Union, and Guatemala. Col Prouty is there and while personal security to top officials he has beenf flying is now the military governer of the the capture Japanese airbase that will support these operations.

- **1950's**: The Cold War is underway. ATSUGI still exists but the Office of Special Operations that now includes General Charles Cabell and Col Prouty is now near the Joint Chiefs of Staff inside the Pentagon and direct reports to the Joint Chiefs. In Grace Ranch 1951 the horses are sold of and this becomes the "Okinawa" of CIA air force activity as surplus planes are rebuilt their to be flown by the CIA. There are some relatives born in the USA and adopted into families in the USA living under the assumed names of those families. They include Glorian Gainey my mother and Norma Jean.

Col Prouty I have marked up as an "umpire" of V.P. 1950's plan for Indonesia and I think if Prouty were involved in Project Harpstar that RFK was overseeing and Norma Jean was in it the Donegan family and its hidden OSS CIA ties miht be connected to the Harpstar Indonesia plans. Harpstar is the nickname for Vega a very bright star in the sky. What about keeping them under assumeed names thes hiddn relatives who at birh were adopted or placed into host families but installing them or their children in foreign governments still using the adoptive names? The people who have hidden identies should never seem too close to the people they are secretly connected to. Indonesia might be one place to place a relative who is a child in an asumable identy (or even multiple assumable identies) created at the child's acutal birth but details of the actual birth are hidden.

Hidden Identities and Strategic Placement that Gunderson will be a narrator of

During the Cold War, the Office of Special Operations—now embedded near the Joint Chiefs—oversaw initiatives that blurred the lines between family, identity, and national strategy. Some individuals, born in the U.S. and quietly adopted into host families, lived under names that concealed their true lineage.

These placements, possibly including figures like Glorian Gainey and Norma Jean, may have intersected with covert programs like Harpstar—an RFK-linked initiative whose celestial codename (Vega) hinted at brilliance hidden in plain sight.

In regions like Indonesia, where American influence was both desired and denied, such identities could be deployed without ever revealing their origin, ensuring strategic distance from their true connections.

- **1960's**: JFK dislikes and distrust both royals and overthrows. JFK objects and is assassinated. Robert F. Kennedy who also objected to MK-Ultra runs for President to face of with Nixon but is assassinated Nixon becomes President. Ed Donegan asserts Project Harpstar more than Bay of Pigs was the reason and the hidden identities of the Donegan and McMartin preschool in Los Angeles are part of hidden identities.
- **1970's**: As Watergate unfolded Nixon and the plans I assert the Lawfords, JFK, and the CIA had underway were collapsing. Not every scandal that might have come out at that timne did come out, but over time more and more backstories are being found such as the JFK and Allen Dulles conflict over Indonesia.
- **1980's**: George H.W. Bush has risen from oil executive into the Vice Presidency. Now a major series of events rock McMartin Preschool and a similar site in Franklin, Nebraska. Some Kennedy era people from the 1950;s and 1960's now suspect these were long running CIA operations testing and placing children for CIA usage. Ted Gunderson along with many others wil bitterly blame George H.W. Bush for all CIA wrongdoing in the world and many will link that to these CIA research sites.
- **1990's**:
- **2000's**: Barrack Obama Jr. succeeds the Bush family. This history including Truther and Birther still needs to be covered up and mostly the Never Trump coalitions including especially the Cheney family oppose records releases, etc.,
- **2010's**:

Liabilities

- **1900s**: By 1925 Albert of York is showing a speech defect (its more than that) very publicly. His older brother Edward of Wales does not show it. Russian Tszars are in trouble witth Hemophilia mixed with other troubles.
- **1910s**:
- **1920's**: A genetic different is normally a risk as are extramarital affairs. THe Nazis are popular in 1926 but still a pariah to world elites and industrialists who fear both socialism and an aggressor Germany gaing power again in Europe. At this time covert research is likely already ongoing and Norma Jean and Glorian Gainey are to keep quite about it. Dean Rusk helps place Glorian in Denton, North Carolina, Joseph Kennedy Sr. now in Hollywood will help Norma Jean.
- **1930's**: Edward VIII was too close to Franz Kutschera, Hitler and others, but like LBJ was probably asking questions about genes and eugenics. And like a father or uncle King Edward VIII was discussing the bastard children Norma Jean and Glorian Gainey. But this need for genetics and parenting talks can not be explained to the public satisfactorily. The bastard children are denied and so is the discussion about them with Franz Kutschera and Hitler.
- **1940's**: WW 2 begis and ends. The horrors of Hitler and Kuchsera and Himmler come to light including the bunkder Himmler used in Villa Von Trap. Not far away is Camp Bucshwald.
- **1950's**: James Donegan is in Japan with Col Prouty, E. Howard Hunt, and others in 1952 Later he will move to LA with the 509 Composite Group. Donegan, Prouty, the Hunts, Holts are tied together as JFK and RFK were already tied to the Donegan as Rusk was. This faction of Hunt will assassinate JFK with Prouty and Donegan siding with but unable to defend the deceased jFK. Ed is in McMartin school with that defect. Since 1958 at the time of Tom Donegan;'s birth both of us are under childhood development study at McMating.
- **1960's**: Ed Donegan asserts the grooming of children for foreign placement included Barrack Obama Jr. This is because Norma Jean and Glorian Donegan might have provided an egg for someone else to fertilize, a non white to do so.
- **1970's**: Nixon has to cover-up what he, George H.W. Bush, Zapata, Allen Dulles, and others did for Indonesia and Cuba and Guatemala. Watergate with Hunt participating.
- **1980's**:
- **1990's**:

Ed Donegan and Ted Gunderson and and others and children and the search for tunnels

Hidden Infrastructure Through Fabricated Origins

Intelligence-linked families—formed a hidden infrastructure for Cold War influence operations.

During the Cold War, intelligence-linked families didn't just contribute operatives—they became the scaffolding for covert influence. This hidden infrastructure wasn't built with bunkers or satellites, but with fabricated identities, phony birth certificates, and strategic adoptions.

Overheard by Copilot in the earlier days of Aristocracy 1926

Aristocratic Dialogue: 1920s Drawing Room

Lady Penrose: Oh yes, Lord Smith! He's the second cousin of Duke Joseph—though some say the bloodline was... diluted.

Sir Alton: Quite. And Princess Adams—well, no one truly believes Duke Fitzgerald is her father. The resemblance is... diplomatic at best.

Lady Penrose: It's all terribly convenient, isn't it? The estate, the titles, the silence.

Meanwhile in Los Angeles near RKO

Jospeh Kennedy Sr: She looks so lovely this new born just back from the hospital. She probably will grow up a normal every day american wearing nice blue jeans and move on to a life free of all that publicity. I wonder how Dean Rusk is doing in the search for a family for Gloian? They both carry the defect and can be hellped privately without publicity on that either.

- **Birth as a Cover Story:** Some children were born into intelligence-connected bloodlines but immediately placed into host families under falsified documentation. Their true lineage was buried beneath layers of bureaucratic camouflage.
- **Assumed Names as Operational Assets:** These identities allowed them to move through society, foreign governments, and even domestic institutions without ever revealing their strategic origin.

- **Genealogy as Tradecraft:** The manipulation of birth records, adoption papers, and family histories became a form of espionage—where the truth was not just hidden, but rewritten.

This system enabled long-term placement of assets who could influence policy, culture, and geopolitics from within—without ever appearing connected to the intelligence apparatus. It's not just covert ops—it's covert inheritance.

Brittany Murphy was CIA hit over Wade And Bernard Barker is a chapter in my book about Borderline Personality Disorder is important

In high tech the "vulnerability" is some problem that may allow a computer to to be hacked into. A method used to attack that vulnerability is the "exploit." Jen Moore is an expert in both McMartin and Franklin school history, Borderline as a trauma management problem and how it can be used against a person with BPD. If vulnerably to trauma and the volatile reactions to trauma why not inflict trauma on someone vulnerable to it and then wait for the person being traumatized to explode? What might be upsetting to a person? Unwanted come-ons especially by persons not attractive to the person being harassed, threatening conduct towards a person, or forms of harassment. Created Trauma is the sabotage of a person vulnerable to trauma. The lest obvious way to undermine a Borderline Personality is to traumatize it and wait for the reaction.

In Girl Interrupted a Kennedy administration official's daughter is in a psych-ward. Britany Murphy plays her best friend there. All sorts of CIA connections exist in the real story and back-story. She is treated for Borderline Personality Disorder a symptoms-group that overlay what is mostly likely primarily FOXP2 brain development gene and the resulting conditions are variations on Minimal Brain Disorder. That often responds to amphetamines but also Bupropion and both are effective in (perhaps Bupropion more so) in emotionally improved mental state (Well rather than in Abandonment Trauma or any other trauma) and improved concentration that ADD will if untreated become a pathological cause of.

Bupropion is an antidepressant medication that has received FDA approval for the treatment of depression and seasonal effective disorder and as an aid for smoking cessation.

I Edward Paul Donegan have studied ADD/ADHD extensively and experts say that (and I have found) the mental focus disease can result in both academic and social failures but in their direct effect and in particular social failures as others are moving towards college and making plans together as the lower academic rung is on the social outs.

Susana Kaysen is the only student of her elite hight school not going on to college and she is a drug addled mess. In the movie and perhaps reality is was drinking and a bottle of aspirin but was considered a suicide attempt by the volume of both.

This differs from Schizophrenia in that the factual perceptions are correct but the emotional perceptions of the world, the context of the individual, are corrupted the individual feels a lack of connection to or even an understanding of the why or what of the world they are in.

B. Prognosis: The resolution of the depressive affect and suicidal drive should be expected as a result of the hospitalization. The degree of personality integration and ego function which may be achieved for the long term is hard to predict. We may say that with a good intensive working relationship in therapy and a successful relationship to the hospital the patient may be able to achieve a more satisfactory means of adapting. Nevertheless because of the chronicity of the illness and the basic deficiencies involved in personality structuring, a more complete recovery is not to be expected at this time. However, the patient may learn to make more wise choices for herself within the boundaries of her personality so that she is able to achieve a satisfactory dependent relationship if necessary which will sustain her for a long period of time.

Observations an the interpretations of the observations as analysis are two separate stages of understanding and the latter phase is corrupted as a process in Borderline Personality Disorder.

Poisoned by Toxic Metals as a factor or co factor to backterial or viral pneumonia? Metallic dusts deposited in the lung may give rise to pulmonary fibrosis and functional impairment, depending on the fibrogenic potential of the agent and on poorly understood host factors. Inhalation of iron compounds causes siderosis, a pneumoconiosis with little or no fibrosis. Hard metal lung disease is a fibrosis characterized by desquamative and giant cell interstitial pneumonitis and is probably caused by cobalt, since a similar disease has been observed in workers exposed to cobalt in the absence of tungsten carbide. https://pubmed.ncbi.nlm.nih.gov/2178966/

Brittany Murphy: Tragic Accident or Conspiracy? Kendall Rae

Prior to their deaths Brittany Murphy and Simon Monjack were on the DHS Watchclist and had been warned by a DHS Whistel-blower of trouble with DHS for the couple. https://youtu.be/mwkLAlKWWHw?si=3IpoMKxfmZmBF5a9&t=589

Kendall Rae reports on the deaths of Murphy and her husband Monjack that followed in quick succession and reports on the conspiracy elements targeting them that they themselves reported to others, the father of Murphy held, and a DHS ICE Whistle-blower had reported to them. Here is that link that starts in the middle of the Rea report because that is when the details emerged in the report. The RT Today screenshot was taken as a screenshot by Rea.

Winona Ryder - "*When I read the book I was in a way sad that i hadn't read it when i was a teenager.*"

What if Brittany Murphy read the book to and the story of Wade Barker who is a son of probable JFK assassin Bernard Baker of Watergate and was at Dealy Plaza?

Girl, Interrupted is a 1999 American drama film directed by James Mangold and written by Mangold, Lisa Loomer and Anna Hamilton Phelan, based on the 1993 memoir by Susanna Kaysen. Starring Winona Ryder, Angelina Jolie, Clea DuVall, Brittany Murphy, Elisabeth Moss, Jared Leto, Angela Bettis, Jeffrey Tambor, Vanessa Redgrave, and Whoopi Goldberg, the film follows a young woman who spends 18 months after being institutionalized in 1967 institutionalized at a psychiatric hospital following a suicide attempt.

In 1967, Cambridge Massachusetts, aimless eighteen-year-old Susanna Kaysen has a nervous breakdown and overdoses on aspirin and alcohol.

Girl, Interrupted was theatrically released in the United States on December 21, 1999, and grossed $48 million worldwide.

Her death at age 32 was followed 5 months later by her recent husband Simon Monjack. She and he felt they were under surveillance, installed massive amounts of security cameras and feared very powerful elemnts were after them. They were considered paranoid due to exposure to toxic mold. https://youtu.be/rlxXRXMqIHM?si=IO2XFqYamn_whBkl&t=68. Both of

these figures likely had ties to and insider information on MK-ULTRA, Andy Warhol, and the CIA assasination of JFK through alternate patchs for each.

In A Girl Interrupted the auto-biography of Susan Keyson Carl_Kaysen is the father of her when she is treated for Borderline Personality Disorder. She is the daugter of a Kennedy administration official hospitalized with the son of a Watergate CIA connected burger and was tied to E. Howard Hunt and G. Gordon LIddy.

Wade Barker with Susan Keyson

He constantly talks about how his father is in the CIA, and has many powerful and dangerous friends. His claims are dismissed as delusions until the Watergate scandal breaks, and two of his father's friends are suddenly all over national television. https://www.litcharts.com/lit/girl-interrupted/characters/wade-barker#:~:text=He%20constantly%20talks%20about%20how,suddenly%20all%20over%20national%20television.

The Vice President George H.W. Bush Whitehouse is tied to Omaha banking in Franklin, Nebraska and the Boystown Scandal with the introduction to the Nebraska State Legislature Leadership Conference report by Ted Gunderson who like most saw these as combined George H.W. Bush operations tied the CIA and tied to the assassination of JFK with Allen Dulles and others participating.

TreasonByBushFamily.png is a graphic I have of putting various books together of those documenting what first hand witness accounts are. These are tied to CIA assassination JKF and that George H.W. Bush was in Dallas as was Nixon for Coca-Cola and all these had been part of the plan. The police and media continue to refute the first hand accounts and forensic evidence in part because they do not understand the plot and I am trying to raise the level of understanding of the police and press. St. John Hunt with the same set of allegations or close to them has not had widespread acceptance nor has Roger Stone.

A black Republican who had been a leader in organizing minority support for the President's 1988 campaign and who proudly displayed a photo of himself and the President, arm in arm, in his Omaha home, was at the center of a sex and money scandal that continues to rock the Cornhusker state.

The scandal originated with the collapse of the minority-oriented Franklin Community Credit Union in Omaha, directed by Lawrence E. King, Jr., a nationally influential black Republican who sang the national anthem at both the 1984 and 1988 Republican conventions. King became the subject of the Nebraska Senate's investigation conducted by the specially created ``Franklin Committee'' to probe charges of embezzlement. In November 1988, King's offices were raided by the FBI and $40

million was discovered missing. Within weeks, the Nebraska Senate, which initially opened the inquiry to find out where the money had gone, instead found itself questioning young adults and teenagers who said that they had been child prostitutes. Social workers and state child-care administrators accused King of running a child prostitution ring. The charges grew with the former police chief of Omaha, the publisher of the state's largest daily newspaper, and several other political associates of King, finding themselves accused of patronizing the child prostitution ring.

King is now serving a 15-year federal prison sentence for defrauding the Omaha-based credit union. But the magazines Avvenimenti of Italy and Pronto of Spain, among others, have charged that King's crimes were more serious: that he ran a national child prostitution ring that serviced the political and business elite of both Republican and Democratic parties. Child victims of King's operations charged him with participation in at least one satanic ritual murder of a child several years ago. The Washington Post, New York Times, Village Voice and National Law Journal covered the full range of accusations after the story broke in November of 1988. King's money machinations were also linked to the Iran-Contra affair, and some say that King provided the CIA with information garnered from his alleged activities as a ``pimp'' for the high and mighty.

Pronto, the Barcelona-based, largest circulation weekly in Spain with 4.5 million readers, reported that the Lawrence E. King child prostitution scandal ``appears to directly implicate politicos of the state of Nebraska and Washington, D.C. who are very close to the White House and George Bush himself.''

The weekly stated that Roy Stephens, a private investigator who has worked on the case and heads the Missing Youth Foundation, ``says there is reason to believe that the CIA is directly implicated,'' and that the ``FBI refuses to help in the investigation and has sabotaged any efforts'' to get to the bottom of the story. Stephens says that ``Paul Bonnacci directly accused President Bush of being implicated'' in the affair when he testified before the Franklin Committee.@s3 Bonnacci, who had been one of the child prostitutes, is identified by leading child-abuse experts as a well-informed, credible witness.

Lawrence King was no stranger to President Bush. And Lawrence King was no stranger to Craig Spence. Several of the Omaha child prostitutes testified that they had traveled to Washington, D.C. with King in private planes to attend political events which were followed by sex parties. King and Spence had much in common. Not only were they both Republican Party activists but they had gone into business together procuring prostitutes for Washington's elite.

Bush's name had repeatedly surfaced in the Nebraska scandal. But his name was first put into print in July 1989, a little less than a month after the Washington call boy affair had first made headlines. Omaha's leading daily newspaper reported, ``One child, who has been under psychiatric care, is said to believe she saw George Bush at one of King's parties.''

John Warnock Hinckley Jr. was born in Ardmore, Oklahoma and moved with his wealthy family to Dallas, Texas at the age of four. His father was John Warnock Hinckley Sr. (1925-2008), founder, chairman, chief executive and president of the Vanderbilt Energy Corporation. His mother was Jo Ann Hinckley (née Moore; 1925-2021)

Hinckley's father was a financial supporter of George H.W. Bush in the 1980 election campaign. Bush was Reagan's biggest rival for the Republican Party's presidential nomination. Hinckley's older brother Scott, who became vice president of his father's oil company after graduating from college, was supposed to have dinner at Neil Bush's house the day after the assassination attempt. The connection between the two families has occasionally been used for conspiracy theories, for example by Roger Stone.

Bush family blood relative and look-alike Billy Bush was part of the Never Trump movement getting open mic damning talk from Trump during a first term election campaign time frame event.

Background of the Project

The preschool site was located in the greater Los Angeles area of Southern California, in the of Manhattan Beach. Specifically it. was located at 931 aManhattan Beach Blvd. It was built on a rectangular parcel near the northeast corner of the intersection of .Manhattan Beach Blvd. and Walnut Ave. (Figure I). The rectangular lot measured some 35.4 m-(116') N/S by 11.1 m-(36') In addition we the neighboring lot (927 Manhattan Beach Blvd.) which bordered the preschool lot. extending west of it to the intersection of Walnut Avenue and Manhattan Beach Blvd. (see Figure I). This property, referred to herein as the "side lot", measured about 35.4 m.(ca. 116') N/S and 12.3 m.(ca. dC)') EAV (Langenwalter, ct al, 1985). Thus the combined two lots measured 35.4 m.(116') N/S bv 23.4 m.(76') E/'W'. with a combined total area of 828.4 square meters (S. 747 sq. ft.). This area is hereafter referred to as the "site."

As stated in section 1.1 above. the objectives of this archaeological project were to independently and objectively resolve whether or not actual corroborative evidence of the reports cf the children regarding features and data at the preschool could De located and recovered. Tnis was necessitated bv the fact that despite seven vears of official investi- gation, from September, 1983 to July 27. 1990 (USA Today, 1985: Wiley, 1991, p. 88) the tunnel reports of the children and the attendant concerns of the parents were never adequate]v addressed. The lack of tangible corroborative evidence of the children's reports of subterranean openings was used in court to cast doubt on the credibility of the children's testimony regarding the case in general. Obviously if such corroborative data were to have een discovered and entered into evidence at the appropriate time in the case, they may have been important factors in the jury•s final verdicts. However, as the series of events occurred. as described below. no such corroborative evidence was to be forthcoming until our work. Even when it was uncovered it was given no role in court cases. John DeCamp: It was Bill Colby, with his power and position as ambassador in Vietnam, in 1970, that made it possible for me to accomplish something never before done or after: to run for the position of state senator from abroad. I fought my entire election campaign from Vietnam, and won it-without ever setting foot on American soil. I ran and won, despite the fact that the top brass, from the Postmaster General, to the heads of the Army and Joint Chiefs of Staff, had tried to stop me, because I was saying, for the first time, that which Bill Colby and others thought needed to be told to the American people. That was: "Let us win or get out, but let's not keep conducting a charade, where we simply kill American boys to support a corrupt regime while the truth is hidden from the American people."

During World War II Colby served with the Office of Strategic Services. After the war he joined the newly created Central Intelligence Agency (CIA).

Before and during the Vietnam War, Colby served as chief of station in Saigon, chief of the CIA’s Far East Division, and head of the Civil Operations and Rural Development effort, as well as overseeing the Phoenix Program. After Vietnam, Colby became director of central intelligence and during his tenure, under intense pressure from the Congress and the media, adopted a policy of relative openness about U.S. intelligence activities to the Senate Church Committee and House Pike Committee. Colby served as DCI under President Richard Nixon and President Gerald Ford until January 30, 1976; he was succeeded at the CIA by George H. W. Bush.

It was Colby who had revealed to Congress the plans to kill Fidel Castro, the spying, phone-tapping on American citizens (in direct violation of the CIA charter) and the conducting of biological tests by the CIA on unsuspecting citizens, and agency's using human guinea pigs for mind-control experiments involving LSD, as we saw in CONSPIRACY THEORY movie with Mel Gibson, MK-Ultra program. Colby was in charge of the infamous Operation Phoenix during the Vietnam War, in which more than 20,000 South Vietnamese citizens - supposedly Vietcong sympathizers - were rounded up, tortured and executed. Must have found religion late in life. Phoenix was run by the infamous Hanoi station, same group that brought back tons of heroin sewn inside G.I's bodies for the Mafia to distribute.

THE ENTIRE CIA HATED COLBY, however, he died while Bill was prexy so he goes on the list. According to the original CNN report, Colby was reported missing by neighbors who "recovered" his canoe, by one story from under the dock at Colby's house, by another report, 1/4 of a mile downstream from Colby's home. Colby was by all report a methodical, tidy man, yet police found his home unlocked, his computer on, and a partly eaten dinner on the table. The official story is that Colby just put down his fork and decided to drop everything and go canoeing. On Monday, May 6th, Colby's body was found just 20 yards from where his canoe had been recovered, in an area that had been thoroughly searched several times by helicopters and search teams. Most notable about the body was the absence of a life jacket, which according to his wife, Colby always wore on the water. Inferred is that a well known, old co-worker called him and said come on down to the river and talk to me. Colby was not really planning on canoeing. Gunderson he asserts Colby was killed by the CIA trying still trying to keep secrets from being revealed.

Like many OSS veterans, several former Jedburghs (small team special operators with axes leverage forces) had successful post-war careers. William E. Colby, who also commanded the Norwegian OG, served as the CIA Director from 1973-1975. Major General John K. Singlaub led the Studies and Observation Group (SOG) in Vietnam from 1966-1968. The Jedburgh with the closest connection to Army Special Forces was Colonel Aaron Bank, first Director of Special Forces (SF) and Commander of the first operational SF group, the 10th SFG. Many of the tactics and techniques used by Jedburgh teams were adopted for training early Special Forces in the 1950's.

> Norwegian commandos were vital in WWII resistance, most famously for the SOE-led Operation Gunnerside, which destroyed the German heavy water plant at Vemork, a crucial step in stopping the Nazi atomic bomb project. Trained in Great Britain, Kompani Linge and other Norwegian units carried out sabotage and commando raids, including Operation Musketoon, using skills honed for the harsh Norwegian terrain, like skiing.

> Special Operations Executive (SOE) was a British organisation formed in 1940 to conduct espionage, sabotage and reconnaissance in German-occupied Europe and to aid local resistance movements during World War II.
>
> SOE personnel operated in all territories occupied or attacked by the Axis powers, except where demarcation lines were agreed upon with Britain's principal Allies, the United States and the Soviet Union. SOE made use of neutral territory on occasion, or made plans and preparations in case neutral countries were attacked by the Axis. The organisation directly employed or controlled more than 13,000 people, of whom 3,200 were women.[2] Both men and women served as agents in Axis-occupied countries.

During World War II Colby served with the Office of Strategic Services. After the war he joined the newly created Central Intelligence Agency (CIA). Before and during the Vietnam War, Colby served as chief of station in Saigon, chief of the CIA's Far East Division, and head of the Civil Operations and Rural Development effort, as well as overseeing the Phoenix Program.

In 1959 Colby became the CIA's deputy chief and then chief of station in Saigon, South Vietnam, where he served until 1962. Tasked by CIA with supporting the government of Ngo Dinh Diem, Colby established a relationship with President Diem's family and with Ngô Đình Nhu, the president's brother, with whom Colby became close.

An attempt to hire former CIA director William Colby to lead a state of Nebraska investigation of the Franklin scandal failed in a legislative committee 4 to 3 vote. Instead, the committee appointed attorney Kirk Naylor as its chief investigator. A major

figure involved in investigating Franklin told WMR that Naylor was the most incompetent person the committee could have found to lead the investigation. Colby was a Vietnam War colleague of Nebraska state Senator John De Camp, one of major investigators of the Franklin scandal. Colby reportedly was ready to expose the CIA's own involvement in the use of child prostitutes for the purposes of political and diplomatic blackmail. Colby died in a suspicious canoeing accident on the Chesapeake Bay on April 27, 1996.

DeCammp met William Colby in Vietnam and at that time Colby recruited DeCamp into the CIA. At this time Edward Lansdale and others were working on Operation Mongoose and other programs Prouty and Chauncey Hot and others refer to. Ted Gunderson was working for RFK who was overseeing and trying to stop the Mafia use in Cold War V.P. Nixon era operations. When the McMartin School CIA operations tied to Goerge Bush erupted Colby, DeCamp, and others were brought out of retirement in a way to work for Gary Cardori as to the history of the CIA in these schools. Colby was considered for the lead investigator but Caradori won the spot in a close vote. Thus the investigatory operation was started using these experts in those events from earlier in their lives.

John W. DeCamp (July 6, 1941 - July 27, 2017) was an American Republican politician and author who served in the Nebraska legislature from 1971 to 1987. He served as an infantry officer in the United States Army during the Vietnam War. In 1975 he was central to organizing Operation Babylift as a civilian, which evacuated 2,800 orphaned Vietnamese children. In 1992, DeCamp wrote a book titled *The Franklin Cover-up: Child Abuse, Satanism, and Murder in Nebraska* in which he alleged the supposed existence of the Franklin child prostitution ring.

Early life and legislative career

John DeCamp was born in Neligh, Nebraska, in 1941. He joined the United States Army during the Vietnam War, attained the rank of Captain in the infantry, and was decorated for his service in Vietnam. In 1975 he initiated Operation Baby Lift, which evacuated 2,800 orphaned Vietnamese children, and was later assigned to serve as an aide to William Colby, then-Deputy Ambassador to Vietnam.

DeCamp began his election campaign for the Nebraska State Senate while still stationed in Vietnam, was elected and served four terms as a Nebraska state senator from 1971 to 1987, during which he was described as "a strong advocate for veterans".

After the legislature

In 1992, DeCamp wrote a book titled *The Franklin Cover-up: Child Abuse, Satanism, and Murder in Nebraska* in which he alleged that the Franklin child prostitution ring allegations was not a hoax, as the grand juries dutied with investigating these allegations concluded, and alleged that the FBI and local Nebraska officials participated in a cover-up. DeCamp was featured in an unaired 1993 documentary titled "Conspiracy of Silence" produced by Yorkshire Television for the Discovery Channel. Producer Tim Tate said that the Discovery Channel withdrew their support for the film shortly before its broadcast date and was never aired on television.

DeCamp served as a lawyer for the Militia of Montana, a militia-movement group, in the 1990s.

In 1996, DeCamp ran for the U.S. Senate as a Libertarian, but lost to Republican Chuck Hagel.

In 2006, DeCamp attempted to return to the Nebraska legislature, running for a seat in the 30th District, which consisted of Gage County and southern Lancaster County. In the nonpartisan primary, he placed fourth of six candidates, with 12.3% of the vote; the top two vote-getters moved on to the general election, in which Norm Wallman was elected to the seat.

In Nebraska State Senator Ernie Chambers's 2008 satirical lawsuit against God, DeCamp acted as the attorney for God.

DeCamp died in Norfolk, Nebraska, on July 27, 2017. He had suffered from Parkinson's disease and Alzheimer's disease.

AUGUST 1978 LAW, GOVERNMENT & SOCIETY

n 1975, under the directorship of William Colby, the CIA found itself in a state of unprecedented crisis. Its entire role had undergone a dramatic change: from being a secret investigative agency it had become a target of public investigation, with no fewer than four government bodies scrutinizing its past activities. A presidential commission, chaired by Vice President Nelson A. Rockefeller, was examining the CIA's domestic activities over a quarter of a century to ascertain whether it had violated its charter - or the Constitution; a Senate Committee, under the chairmanship of Frank Church, was investigating, among other things, alleged assassination attempts by the CIA against foreign leaders; a House Select Committee, headed by Otis G. Pike, was inquiring into other CIA operations; and the Department of Justice was sifting through a 693-page list of "questionable activities" of the CIA to determine whether any such activity merited indictment or legal action against past or present CIA officers.

[What we known now from President Nixon's own statements is he started the Presidential Commission under Rockefeller to undermine the other hearings. The Pike commision was based on a leaker from Army INtelligence about certain family's the Families of the Family Jewels program being watched through their lives and studied, and that Frank Church Committee was basicly a Roman Catholic inquistion of why the CIA was wrong. I believe Congressman Leo Ryan a Roman Catholic investigng Family Jewels in Guyanna run by the CIA was on BOTH the Pike commttee and Church Comitte and went undercover in Folsom prison to see about CIA tests on prisoners.]

The impact of these investigations on the normal activities of the CIA was "devastating," as William Colby explains in his autobiography: "Apart from the fact that I and any number of my senior associates were constantly being called away from Langley to testify before one committee or another, the agency overall was diverted from its responsibilities by the deluge of demands from the hordes of investigators, with literally hundreds of CIA officers reassigned from normal intelligence operations to handle the mechanical and clerical chores of locating requested documents, sanitizing them to remove names of agents and particularly sensitive operational material, and then negotiating whether or not the information could be publicly released." According to other former executives of the CIA, the multiple investigations did much more than merely paralyze the CIA temporarily. They resulted in completely demoralizing its staff, disrupting its relations with other Western intelligence services on whom it depended for information, discrediting it with the public, and, for all practical purposes, wrecking it as a viable intelligence service.

The proximate cause of these investigations was a front-page story in the New York Times on December 22, 1974 by Seymour Hersh which revealed that the CIA had been engaged for some twenty years in the sort of domestic surveillance that had been specifically proscribed by the CIA's charter. The Hersh story was based on a closely-held CIA report done the previous year by the Inspector General, which was a compilation of all the CIA's questionable activities prior to 1973 and which was termed by Colby the "family jewels."

Within forty-eight hours of publication of the Times exposé, Colby effectively confirmed the veracity of the story by announcing the resignation of James Jesus Angleton, the CIA's chief of counterintelligence, who had been mentioned in Hersh's report, as well as Angleton's three top deputies on the counterintelligence staff; and Colby hand-delivered a lengthy report of his own to Secretary of State Henry Kissinger. Though written in a less sensational tone than Hersh's exposé, this report clearly substantiated the fact that the counterintelligence staff as well as other elements of the CIA had been involved in questionable and possibly illegal activities. Colby told Kissinger that he had cleansed his report of agents' names and secret operations so that the President could make it available to the press. Colby also appended to the report information Hersh had not divulged, including a list of alleged assassination attempts by the CIA. Confronted with this document, President Ford had little choice but to initiate an investigation of the CIA.

Halloween Massacre Timeline

Halloween Massacre (Ford administration) retrieved from Wikipedia and copied or modified to here

Cabinet shake-up

The shake-up had its roots at the beginning of Ford's presidency in August 1974. As was the case when Lyndon B. Johnson and Harry S. Truman succeeded to the presidency intra-term, in 1963 and in 1945 respectively, under similarly strained sets of circumstances, Ford inherited President Richard Nixon's cabinet and staff of presidentia l advisers. The Nixon and new Ford appointees often clashed, and the resulting acrimony often got in the way of policy making.

On October 25, 1975, Donald Rumsfeld and Dick Cheney submitted their resignations to the president. Attached to the resignation letters was a memo with their detailed analysis of the perceived problems, and possible future strategies for the Ford administration. The analysis blamed the majority of the problems on Robert T. Hartmann, Henry Kissinger, and Vice President Nelson Rockefeller.

Starting November 4, 1975, which was the Tuesday after the Halloween weekend, and which was timed to fit in the congressional confirmation window, Ford terminated several Nixon holdovers, and announced the names of the successors and new Cabinet nominees.

The changes were:

- Henry Kissinger was replaced by Brent Scowcroft as National Security Advisor, while retaining his post as Secretary of State.
- William Colby was replaced by Ambassador (and future President) George H. W. Bush as Director of Central Intelligence. Colby was offered the post of US Permanent Representative to NATO, but declined.
- James R. Schlesinger was replaced by Chief of Staff Donald Rumsfeld [thought by Conspiracy Theorists to be a hack] as Secretary of Defense. Rumsfeld's deputy and protégé, future Vice President Dick Cheney [also thought to be a Hack and tied to George H.W. and George W. Bush], moved up to be the Chief of Staff.
- Under pressure from Republican Party conservatives, Nelson Rockefeller announced that he would not run for election as Ford's running mate in 1976.[*citation needed*]

Subsequent to these events, Rogers Morton was also replaced by Elliot Richardson as Secretary of Commerce.

Impact and legacy

Various newspaper and magazine articles at the time identified Rumsfeld as having orchestrated these events. At the time, Ford said he alone was responsible for firings. Later, he expressed regret: "I was angry at myself for showing cowardice in not saying to the ultraconservatives, 'It's going to be Ford and Rockefeller, whatever the consequences.'"

Upon President Nixon's resignation on August 9, 1974, Vice President Gerald Ford assumed the presidency. On August 20, Ford nominated Rockefeller to be the next vice president of the United States. In considering potential nominees, Rockefeller was one of three primary candidates. The other two were then-United States Ambassador to NATO Donald Rumsfeld, whom Ford eventually chose as his chief of staff and later secretary of defense, and then-Republican National Committee chairman George H. W. Bush, who would eventually become vice president in his own right for two terms and president for one term.

The Watergate scandal was a significant political controversy in the United States during the presidency of Richard Nixon from 1972 to 1974, ultimately resulting in Nixon's resignation. It originated from attempts by the Nixon administration to conceal its involvement in the June 17, 1972, break-in at the Democratic National Committee headquarters located in the Watergate Office Building in Washington, D.C.

Following the apprehension of the five individuals involved in the break-in, both the press and the Department of Justice connected the funds found on those involved to the CRP (the fundraising organization of Richard Nixon's 1972 re-election campaign). Subsequent investigations and revelations during trials prompted the U.S. House of Representatives to grant the House Judiciary Committee expanded investigative authority.

Additionally, the Senate established the U.S. Senate Watergate Committee, which conducted hearings.

Witnesses testified that Nixon had sanctioned plans to cover up his administration's involvement in the burglary and that there was a voice-activated taping system in the Oval Office. Nixon's administration resisted

the investigations, leading to a constitutional crisis. The televised Senate Watergate hearings garnered nationwide attention and public interest.[

THE CHURCH COMMITTEE

The Church Committee (formally the United States Senate Select Committee to Study Governmental Operations with Respect to Intelligence Activities) was a US Senate select committee in 1975 that investigated abuses by the Central Intelligence Agency (CIA), National Security Agency (NSA), Federal Bureau of Investigation (FBI), and the Internal Revenue Service (IRS). Chaired by Idaho Senator Frank Church (D-ID), the committee was part of a series of investigations into intelligence abuses in 1975, dubbed the "Year of Intelligence", including its House counterpart, the Pike Committee, and the presidential Rockefeller Commission. The committee's efforts led to the establishment of the permanent US Senate Select Committee on Intelligence.

The most shocking revelations of the committee include Operation MKULTRA, which involved the drugging and torture of unwitting US citizens as part of human experimentation on mind control;[1][2] COINTELPRO, which involved the surveillance and infiltration of American political and civil-rights organizations;[3] and Family Jewels, a CIA program to covertly assassinate foreign leaders.[4][

Ultimately, much to the disappointment of George Bush, whose timetable of boundless personal ambition and greed for power had once again surged ahead of what his peers of the ruling elite were prepared to accept, the perspectives for a more overtly dictatorial form of regime came to be embodied in the figure of Vice President Nelson Rockefeller. Skeptics will point to the humiliating announcement, made by President Ford within the context of his 1975 "Halloween massacre" reshuffle of key posts, that Rockefeller would not be considered for the 1976 vice presidential nomination. But Rockefeller, thanks to the efforts of Sarah Jane Moore and Lynette "Squeaky" Fromme, each of whom attempted to assassinate Ford, had already come very close to the Oval Office on two separate occasions.

Ford himself was reputedly one of the most exalted Freemasons ever to occupy the presidency. Preponderant power during the last years of Nixon and during the Ford years was in any case exercised by Henry Kissinger, the de facto president, about whose pedigree and strategy something has been said above. The preserving of constitutional form and ritual as a hollow facade behind which to realize practices more and more dictatorial in their substance was a typical pragmatic adaptation made possible by the ability of the financiers to engineer the slow and gradual decline of the economy, avoiding upheavals of popular protest.

Disciples: The World War II Missions of the CIA Directors Who Fought for Wild Bill Donovan retrieved from https://www.amazon.com/Disciples-Missions-Directors-Fought-Donovan/dp/1451693745 and copied or modified to here

"A fantastic book, one of the very finest accounts of wartime spookery" (The Wall Street Journal)-a spellbinding adventure story of four secret OSS agents who would all later lead the CIA and their daring espionage and sabotage in wartime Europe from the author of the bestselling Wild Bill Donavan.

They are the most famous and controversial directors the CIA has ever had-Allen Dulles, Richard Helms, William Colby, and William Casey. Before each of these four men became their country's top spymaster, they fought in World War II as secret warriors for Wild Bill Donovan's Office of Strategic Services.

Allen Dulles ran the OSS's most successful spy operation against the Axis. Bill Casey organized dangerous missions to penetrate Nazi Germany. Bill Colby led OSS commando raids behind the lines in occupied France and Norway. Richard Helms mounted risky intelligence programs against the Russians in the ruins of Berlin.

Later, they were the most controversial directors the CIA has ever had. Dulles launched the calamitous operation at Cuba's Bay of Pigs. Helms was convicted of lying to Congress over the CIA's role in the ousting of President Salvador Allende in Chile.

Colby would become a pariah for releasing a report on CIA misdeeds during the 1950s, sixties and early seventies.

Casey would nearly bring down the CIA-and Ronald Reagan's presidency-from a scheme that secretly supplied Nicaragua's contras with money raked off from the sale of arms to Iran for American hostages in Beirut. [in The October Suprise for the Reagan Bush ticket 1980]

Mining thousands of once-secret World War II documents and interviewing scores, Waller has written a worthy successor to Wild Bill Donovan. "Entertaining and richly detailed" (The Washington Post), Disciples is the story of these four dynamic agents and their daring espionage and sabotage in wartime Europe.

HONORABLE MEN My Life in the CIA by William Colby

Gerial Ford who faked Warren Commision information fires Colby

Ordinarily, on being summoned to see the President, I would ask what for, so I could bone up on whatever topic was to be the subject of discussion. But this time, I didn't. Marsh, obviously, was eager to get back to sleep and I was tired too, anxious to get home and to bed myself. And be- sides I could make a pretty fair guess as to what it was prob- ably about. The previous day, Saturday, the press had bro- ken a story revealing that the CIA had covertly been funneling aid to Kurdish rebels in Iraq. We had talked of these leaks at the usual meeting in the White House base- ment all that morning. So it was more than likely that the President was assembling a group of aides to discuss how leaks of sensitive material like this could be prevented. All the usual people would be there, I figured-Scowcroft; Buchen;, someone from the Pentagon, possibly Schlesinger himself; Mike Duval; probably Don Rumsfeld; and Marsh and I.

But they weren't. Aside from the Secret Service on duty at the side door, the West Wing of the White House at seven forty-five that Sunday morning was deserted. The anteroom to the Oval Office was empty, until Marsh came in a couple of moments after I arrived. Apparently my guess at what this was all about was wrong. Still, I took a crack at it. 'Boy, that Kurdish story, that's some fine mess, isn't it, Jack?" I said. Marsh nodded absently. "I'd bet anything that it came from the House Committee," I went on. Nlarsh shrugged and looked away, clearly uninterested in pursuing the subject. I made a few more desultory remarks and then, puzzled, let it drop. We stood around in a rather awkward silence.

Promptly at eight President Ford showed up. He came from the White House residence along the enclosed porch, passed the Rose Garden and went directly into the Oval Office without seeing us. He was accompanied by two Secret Service men. After a few moments, one of then invited us in.

Ford was seated behind the huge, handsome Presidential desk, looking a bit grim and, as he was to fly to Florida to meet with Sadat later in the morning, he had a thick black briefing book on the Middle East situation in front of him. He set it aside as soon as Nlarsh and I walked in. I had seen the President regularly in the past year, but ours could not in any way be characterized as a personal relationship. Ford, while always cordial, dealt with me in a fairly formal manner. He did not stand up now; we didn't shake hands. I said "Good morning, Mr. President. Jack said you wanted to see me."

"Yes," he replied, indicating that I should take a seat in the straight armchair in front of the desk. ' 'We are going to do some reorganizing of the national-security structure. He need not have said another word. From that sentence I realized immediately why I had been summoned: I was about to be fired as the Director of Central Intelligence. Ford did not put it quite so bluntly.

In the time honored political tradition with sticky things of this sort, he said he wanted me to take a new job, as Ambassador to NATO. He then sketched the reorganization-which is to say, the sweeping personnel changes-he had in mind. It was what later was to be dubbed the Halloween Massacre, and it in- eluded the sacking of Jim Schlesinger as Secretary of De- fense and Nelson Rockefeller's withdrawal as Ford's run- the straight armchair in front of the desk. "We are going to do some reorganizing of the national-security structure.'

He then sketched the reorganization-which is to say, the sweeping personnel changes-he had in mind. It was what later was to be dubbed the Halloween Massacre, and it included the sacking of Jim Schlesinger as Secretary of Defense and Nelson Rockefeller's withdrawal as Ford's running mate on the 1976 GOP ticket. At the time, however, Ford didn't mention to me what was in store for Schlesinger, for the perfectly good reason that he hadn't yet mentioned it to him. But he did tell me that, under his re-organizational scheme, Henry Kissinger would give up his post as National Security Assistant to the President and move over exclusively to the State Department; that Brent Scowcroft would take over Kissinger's role as Presidential Assistant. And he told me that George Bush was coming back from China to replace me as the new CIA chief. I said he was a good choice, and I meant it. Ford was quick to try to reassure me. I needn't be concerned.

[Colby wonders with Ford about a CIA director being accepted by the UN]

[T] the appointment [to NATO] would be as the President's personal representative and thus didn't need the approval of the NATO countries.

"l realize that, Mr. President," I said; "nevertheless, I really need to think about it and talk to my wife about it." "All right," Ford said. "Let us know your decision as soon as possible." "Yes, sir, I will. I'll get in touch with Jack later in the morning," I said.

He said the changes would be formally announced on Monday and asked me to keep them to myself until then. I agreed.

There was nothing further to say. I stood up. The meeting was over. It had lasted about fifteen minutes. And in those fifteen minutes my thirty-year career as an intelligence officer had been brought abruptly to an end.

I should have been shattered, but my old discipline of thinking of the next step ahead took over. I wanted to catch Barbara, who would be leaving home in time to make a nine o'clock Mass across town. We were going to have to figure out what we should do about the NATO job offer. Marsh, at my elbow as we left the Oval Office, anxiously asked, "You are going to take it, aren't you?" revealing just how important it was that the "reorganization" go without a hitch, that all the players in it be happily in place before it was officially announced to the press. But I suspected even then that I wasn't going to oblige. (Neither was Schlesinger, I later discovered; he turned down Ford's offer to be Chairman of the Export-Import Bank on the spot, and rather angrily.)

UNITED STATES HOUSE SELECT COMMITTEE ON ASSASSINATIONS 1976 TO 1978

The United States House of Representatives Select Committee on Assassinations (HSCA) was established in 1976 to investigate the assassinations of John F. Kennedy and Martin Luther King Jr. in 1963 and 1968, respectively. The HSCA completed its investigation in 1978 and issued its final report the following year, which concluded that Kennedy was probably assassinated as a result of a conspiracy. In addition to now-discredited acoustic analysis of a police channel dictabelt recording,[1] the HSCA also commissioned numerous other scientific studies of assassination-related evidence that corroborate the Warren Commission's findings.[2]

There was also significant public interest after a video segment of the Zapruder film was first shown on TV on March 6, 1975 in Good Night America,[7] after being stored by Life magazine out of view for almost twelve years. The footage showed the president's head recoiling violently backwards inside the presidential limousine during the fatal shooting as Lee Harvey Oswald was more than 80 yards behind. The public, having more and more difficulty accepting the conclusions of the Warren Commission report, led members of Congress to ask for new investigations into the assassination, within the framework of a new Commission of Inquiry.[

In September 1976, the United States House of Representatives voted 280-65 to establish the Select Committee on Assassinations (HSCA) in order to investigate the assassinations of John F. Kennedy and Martin Luther King Jr..

The committee was both controversial and divided among itself. The first chairman, Thomas N. Downing of Virginia retired in January 1977 and was replaced by Henry B. Gonzalez on February 2, 1977. Gonzalez and Chief Counsel Richard A. Sprague had irreconcilable disagreements over control of the committee, budget and investigative techniques, ending with Gonzalez's resignation. Sprague also resigned, in part to increase the chances of Congress voting to reconstitute the HSCA for the new two-year congressional term. Sprague's like-minded deputy Robert K. Tanenbaum also resigned shortly thereafter. Louis Stokes replaced Gonzalez as chairman and G. Robert Blakey was appointed as Chief Counsel and Staff Director to replace Sprague.

Criticisms

Although the HSCA publicly released its findings in 12 volumes and a single-volume summary report, the majority of primary documents were sealed for 50 years under congressional rules. In 1992, Congress passed legislation to collect and open up all the evidence relating to Kennedy's death, and created the Assassination Records Review Board to further that goal. No materials have been uncovered which significantly change the conclusions or opinion of the HSCA.

The ARRB reported: "Because the HSCA investigation was marked by internal squabbling and disillusioned staffers, the committee's records were the subject of ongoing controversy. Some ex-staffers claimed the HSCA report did not reflect their investigative work, and that information that did not conform with the committee leadership's preconceived conclusions was ignored or left out of the report and supporting volumes."

In 1992, author Bonar Menninger dismissed the committee report as Blakey's $5 Million Folly.

Robert Blakey, the chief counsel of the committee, later changed his views that the CIA was being cooperative and forthcoming with the investigation when he learned that the CIA's special liaison to the committee researchers, George Joannides, was actually involved with some of the organizations that Lee Harvey Oswald was allegedly involved with in the months leading up to the assassination.

I am Edward Paul Donegan and I can tell you what William Colby was thinking, doing, and later think as he walked in Red Square Moscow very close to the time that the Donegan family did in the late 1970s, Colby as the USSR fell in the 1990's.

WWI was a devastating war. Once described as the "lovely litle war" it involved millions of deaths, mechanized industrial society weapons of death and war maching capabilities in transport, shipping, logistics, radio communications, navy vessels that could carry tanks and troops, torpedo warfare and took over the entire planet. It was barely over as counties and empires adjusted to the post war conditions as WWII arose in large part as Germany rejected the post WWI conditions. IN WWII Supersonic flight was on the horizon as planes flew at the envelope maximums of subsonic, fighter and bombers were specialized aircraft that worked to deliver large amounts of bombs to be dropped in Dresden or London, missile technology and the V2 missle was under development by Nazi Germnay, RADAR was new on the scene, and the British Empire that had been decline for 50 years as an Empieral Power was somewhat in retreat as it had changed to more espionge based titling of satellite countries than its more powerful days military conquest.

The Family Jewels program was likely underway long before WWII ended and as the war's end approached Averell Harriman and others began divvying up Europe with a soviet side and a Western side and made other plans as well, namely the Marshall Plan with Congressmen Nixon an anti-communist Rockefeller funded Secret Plan to Win the War subversion and overthrow plan that would continue to allie the United States with the Windsor Royal Family as Sullivan and Cromwell, the Dulles Brothers, Felix Frankfurter, the Balfour Declaration, and most world planners had already agreed to and this was not really Nazi Germany but Free Masonry more traceable to Enlgand than most countries though practiced by the Nazis as well.

Within that necessarily secret plan was to assassinate covertly foreign leaders like Castro with mafia groups or CIA groomed paramilitary revolutionary groups that would deny they were front operations run by the CIA and thus keep the USA and England out of war for attacking the sovereigns of other countries with guerilla warfare since that was plausibly deniable but uniformed troops (except when in Special Forces camouflaged operations) would otherwise be dected and traced to the miliary command center responsible for the military act, Washington D.C. or London.

The Special Relationship was bi-directional between England and the USA in our common language, common colonialsm history, common front against Nazi Germany, common scientic coooperation and this would be critical, in the League of Nations, Cryptography and Enigma, RADAR, and Nuclear Weapons and Aerospace.

Much of that was in parity between the British scientist, European ones, and the US ones as was Medical. London had a genetic problem in 1900 they were turning to Max Jacobson to of Austria as well as Frued and Jung, the British Borderline

Personality Disorder set of symptoms that make up Minimal Brain Dysfuction, rational, but poorly reguled in terms of disciplined emotions, thoughts, and concentration habits. Methamphetamine or Methylphadite (Ritalin) were effective, later something closely chemicaly related at the molecule level, Burprin (Wellbutrin.)

It had been Sidney Gottlieb a speech therapist who would broker this agreement with the British and tie it into the Frank Olson Ft Dietrich assassinations program as metrics were developed SAT like about future likelihood of leadershiop success as a Sleeper Agent.

The thought that WWIII of nuclear weapons, supersonic flight, missile and space technology, could be a Cold War the British style of small amounts of leverage with small amounts effort as Allen Dulles put it "allowed the CIA with little effort to make changes in Iran, Gautamala, and Elsewhere" just as the British liked to do it with United Fruit Compnany and the USA could do it toppling a nearby domino rather than nuking it in open hot war.

This was the Family Jewels program , helping biodescendents of Windsor family by Masonic Quilt with each other, become the world rulers who seemed independent patches of fabric.

Opposition the the program includee Malcom X, Dr Martin Luther King, and Marilyn Monroe who found to disreputable a system for the USA and CIA to be involved in since it eroded the very things the USA believed in as a free country.

Decamp - "I go on in this very brief opening forward to explain why I was with Colby he's friend advisor going back to Vietnam days.

I was in Washington standard his place and I was telling him you know I received these threats and he was somewhat familiar with Franklin he he had received national press and and I think he had a lot more knowledge than I'll ever know he had but anyway he was warning me to get away from it to stay away - leave it alone to not touch it anymore and I said wait a minute Bill you know how can you walk away from something when you know terrible things are happening when you know institutions of government and we all rely on that there being corrupt?

Yeah it's a real import and then he said to me he said John sit down just it's just cool off and relax and Sully his wife was there Sally ford and Sally by the way was prominant I think ambassador to more countries than any other person has ever been in the history of the United States appointed by Carter so Sally's got a little little heavy duty things herself and she was listening and nodding her head and agreeing with Bill bill says let me tell you my personal story because maybe it'll have a message for you there.

And he says you know last night I returned from Russia now this is the former head of the CIA under President Nixon and President Ford and he sitting me down and telling me that with that I I just better listen he says last night I returned from Russia is what was I doing in Russia he said I was there and remember this is three weeks three weeks before the Gorbachev coup that hmm changed Russia forever tonight the collapse of Russia he said I was there in Russia with kind of a secret group of people whose names you would instantly recognize and those powerful people from all over the world names like myself you know Colby had been the head of the CIA he said we were there to save Russia from a revolution when and if it collapses so that it doesn't explode into World War Three.

A world war he said this what were you doing trying to actually work with the people we had been defeating to prevent a revolution okay and he says it was the night before I was due to come home he said last night he said I was in my hotel right there on Red Square the most sacred place in all of Russian d'amore communism he said and I couldn't sleep and I got thinking about just how significant these world events were that were occurring he says so I decided what excuse me what they have I'm just gonna go for a walk he said I knew that was forbidden because you know you can't just go walking around

Red Square in the middle of the night particularly the head of the CIA spent 40 years trying to destroy Russia he said but I thought I'd see how far I can get.

He says I walked out past the guards nobody's paying attention so I go out of the hotel then I am in Red Square and from the tomb of Lenin walking up to the doors of the Kremlin itself he said nobody cared nobody was paying attention here was the head of the CIA the most hated the most feared enemy that communism had over the years bill Colby head of the CIA during the most critical time he said in it then it struck me he said that I realized it he said we'd won the Cold War was over Russia was dead communism was dead he said after 40 years and Reverend Weezer his words not mine now he said after 40 years of fighting the bastards we had won we won.

It was over the Cold War was Dunnan and I was the only one of the whole planet to recognize know it right then at that instant and then he said something else struck me something something to just really slam me I said well what was that he said I realized that this walk I was having in Red Square was it that was the only parade I was ever going to have for all our achievements there wasn't gonna be the ticker tapes down Madison Avenue there wasn't gonna be the the waving and he said it was all over and we'd won and this was my private parade.

And it was the only one I said okay bill now we've heard about your private parade in the defeat of communism so on so what's that got to do with Franklin and this whole mess I'm trying to get something he said sometimes you better face up to the fact and this is one of those times that the things you're involved in have have significance and people too big too powerful events and things involved you don't even know about that are just too big and powerful for you to deal with and you have to face up the fact that maybe in in the time frame you'd like to deal with them and the way you'd like to do and can't be done.

He said then sometimes evil does succeed for a while and that's just you have to walk away from it get away from it and he says the only way Franklin will ever get exposed and where it leads to and what it goes is if the national press an independent national press just like happened in Watergate happened in iran-contra happened happening with old [Roman Catholic] Joe McCarthy at the independent national press really gets interested and delves into it and takes it all the way to where it leads

Morrow interjecting - is there such a thing [as a free and indeendent press] anymore in this country?

DeCamp again -See that that's that's why I said I said well how do you do that bill he says I'll help y'all I know something he's called notified a number of people he says the problem is getting one of them to really put the investigative research and reporters onto it and not having back off and where it leads.

Well so I went home thought about it was frustrated and I thought okay I'll do my part to start it all right the story of Franklin as a documentary as a documentary with the things that are available right now today that show there was clearly at least again in my opinion a cover-up.

I won't mince words I won't hedge things I'll spit it out straight and what it cost me it cost me but at least the foundation will be there and of course since since writing the book I've learned a lot more I now believe I think I'm beginning to understand maybe a little more of what bill was saying and where this thing really does lead and I I think now I'm finally understanding why it's so powerful where it leads as I say and I think it leads into things that almost move into the fantasy world that we went to movies and watched and in the 60s and 70s and 80s.

In other words the mysteries of the Cold War battle and how far governments go with their secret services whether it be the CIA or or the Gestapo or the KGB in Russia and I believe and I know this sounds like I'm floating off into Fantasyland right tyro can bring you back here you're right and I dimin the first one a few years ago to say well yeah make good movie but you aren't gonna believe any of this here's what I believe I believe that Franklin had a lot of personalities who through one way or another were linked up to the cold war effort the CIA and other things back during the 70s and 80s.

Morrow: We ran across some information about Larry King in one point that it looked like that he had at one time had some ties with the CIA.

Decamp: he did and I document some of those in the book but beyond that information I've learned since I wrote the book I have no doubt now no doubt Larry King was one of the underlings of the CIA involved in a specific program recruiting particularly young boys particularly kind of a particular kind of boy who were then used in a kind of mental programming a brainwashing (PsyOps) if you would that we were doing to use them for such things as assassinations such things as drug dealing.

remember drug dealing hmm back during the 70s and 80s we now know pretty well was one of the main methods to finance our covert operations we were actually involved in in drug dealing and even even even a lot of those things that sounds like sex, blackmail, so on and so forth at least, yeah mind-control (MKULTRA) thing now as they say sounds "off".

now if anybody's listening I think yeah DeCamp is off with the Lulu Birds you know like *Manchurian Candidate* you remember that old movie were they yeah well I guess what I'm (DeCamp is) saying is I think that [The Manchurian Candidate and MKULTRA of the CIA and DIA]is a integral part of this [Temple of Set Micheal Aquino].

If you have that kind of thing at stake predicting because the (elite)personalities that it goes up to ultimately mm-hmm the American public would be shocked to find it yes our government really really did these things same thing we accuse the other guys are doing which they were doing too well Congress investigated that back in the early 50s and the CIA.

Yeah but remember this a sophistication of the 50s was nothing compared to what it was in the 70s and 80s this is post Vietnam we had suffered our worst defeat in the history of this country our only defeat we now we're not gonna let it happen again between 1975 roughly and 1986 roughly was the most intense Cold War period in this country

I mean it was just that close to a hot war at all times we always think of the Cuban crisis is the time not really 1975 to 1986 remember the Evil Empire, remember Star Wars SDI, remember the contest to see who could build up [GDP and economic strength and military] faster that's what finally broke the Russians they just couldn't keep up in the contest financially so that was the period when technology was going rampant.

Remember the invention of the computer the understanding of the human mind so much more and the information I've learned since the book came out that is poured in from a variety of sources makes me believe that that may well be why it's necessary for the protection of our entire government in a sense embarrassment.

What people would believe what people would feel about their government if they knew some of the things that we had done profilers the motives for the cover-up.

I think that's one of the major motives he says people just protecting themselves other people of course have a vested interest of all a child abuser these kind of things you're certainly willing to cooperate if you are a if you're a judge or an official who got your position as a result of help from this or that.

Remember another surprised and this I'm now convinced of which I didn't know when I wrote the book off at Air Force Base if you're gonna pick the most sacred military installation in the United States for the last 140 years where is it it's off at Air Force Base right in the center of the United States what land USA the farthest you can get from Russia.

mmm-hmm well I am convinced now that there was a major CIA operation out of there handled there and of course Omaha the Heartland at least likely place in the world to have something like this that's a major part of this Larry King was merely a tool in this whole thing.

remember another surprised and this I'm now convinced of which I didn't know when I wrote the book off at *Offutt Air Force Base is a U.S. Air Force base* south of Omaha, adjacent to Bellevue in Sarpy County, Nebraska. It is the headquarters of the U.S. Strategic Command, the 55th Wing, and the 55th Wing of the Strategic Air Combat Command, the latter serving as the host unit. Wikipedia if you're gonna pick the most sacred military installation in the United States for the last 140 years where is it it's off at Air Force Base right in the center of the United States what land USA the farthest you can get from Russia.

Offutt Air Force Base

Mission

The 55th Wing's mission statement is, "Provide dominant intelligence, surveillance and reconnaissance, electronic warfare, and nuclear command, control and communications to national leadership and warfighters,…Any time, Any place."

Vision

Innovative, resilient leaders delivering information dominance across the full spectrum of conflict.

Priorities

Mission, Family, Relationships

The 55th Wing is the largest wing in Air Combat Command and the second largest in the Air Force.

…

mmm-hmm well I am convinced now that there was a major CIA operation out of there handled there and of course Omaha the Heartland at least likely place in the world to have something like this that's a major part of this Larry King was merely a tool in this whole thing. (Truth is stranger than fiction - DeCamp) who I ever thought would be writing a book when you opened you said the latest book rest assured it's my only book at least at this point and who knows may write another one someday but here's how it opens as I say I'm just gonna take a couple minutes and read this because because I think it'll tell you why I whoo-hoo wish I'd never heard of Franklin I'm sitting here writing a book trying to document that some of my closest friends over the years are part of a massive cover-up and that's what I'm doing.

I'm destroying friendships one on another I'm destroying myself in a very real sense you know what is certainly financially I just I just had no choice at some point.

ok so here's how it starts what do Ronald Reagan President George Bush former CIA director William II Colby Democratic presidential candidate Bob Kerry billionaire and second richest man in America and now head of Salomon Brothers Warren Buffett and Ronald raskins the current administrator of the US Agency for International Development (USAID) all have in common I asked my close friend and advisor William Colby one day in 1991 I give up former head of the Central Intelligence Agency CIA Colby said what could that group have in common three things I replied all of them a burden at times for those who have to carry them.

49 to say why I didn't want you to tell anybody that if I'm telling you it it's 5 Minutes :

54 on the record well I shouldn't be talking about it unless I specifically say okay Reverend 6 Minutes :

01 we are agreed that we're going to talk about one specific thing right here it's off the record I'm providing you information with that that that may be 6 Minutes :

08 the exception but I made it clear when I send a memo to the press to answer the press questions to me thing then it's in 6 Minutes :

15 the hands of the public they can do what they want look they were also whether whether this young man or whoever he was 6 Minutes :

21 that the distributed the memo because he got a copy of it from this or that I don't know where he got a copy I understand today I've learned this just 6 Minutes :

28 last week you got from some member of the press in Omaha does my understanding that it was the big deal press

itself what I said should have 6 Minutes :

34 been said and should have been made public I hope the World Herald would print it they never did of course because as I 6 Minutes :

40 try to document in the book I believe the World Herald if you were going to pick an institution of government and 6 Minutes :

45 that's what what our major press is they're institutions of government they are if anything the scent 6 Minutes :

51 Pease the heart of the cover-up and of course they have a very vested interest in doing it and for the benefit of our 6 Minutes :

57 viewers again why do they have a vested interest I think I think you and I will 7 Minutes :

03 never know all the reasons but for sure because of some of their personalities involved Harold Anderson is the was the 7 Minutes :

10 publisher and one of the probably the major stockholder in the world Harold and Harold Anderson was if anything the 7 Minutes :

18 protege I mean the The Godfather if you want to use a word of Larry King in the 7 Minutes :

25 promotion the credit union in well certainly in that and and I'm sure in a lot of other ways he did promote a lot 7 Minutes :

32 in the way of fundraising for the credit union more than that I went out and got 7 Minutes :

37 depositors and generated funds and helped with he was the chairman of the committee that the told Larry King the 7 Minutes :

43 Advisory Committee that theoretically told him what to do or how to do it or why to do it or whatever but then of 7 Minutes :

51 course the advisory committee after this broke they all maintained that they not any of them ever knew what was going on 7 Minutes :

56 and so apparently no one was advice he advisory committee well I rather suspect 8 Minutes :

01 that that maybe I'll use the words of former governor Bob Crosby when he was 8 Minutes :

07 describing Harold Anderson he said you know this man is probably I think he 8 Minutes :

12 said the best investigative reporter in the history of the state he rose to to 8 Minutes :

19 the pinnacle of power ownership of the world Harold publisher here he is the 8 Minutes :

25 chairman of the Advisory Committee here he is him in probably the closest contact of anybody with Larry King one 8 Minutes :

35 has to believe that somebody of his talent in that position raising the 8 Minutes :

42 money for building the credit union everything else that he had more than a passing knowledge hmm I understand Larry 8 Minutes :

49 King and his activities my understanding was that Larry King's salary from the credit union was never really much more 8 Minutes :

56 than about $16,000 a year I believe that's correct yes and he did have several catering businesses and had 9 Minutes :

03 interests in a couple of restaurants that's correct none of them were really very great income producers and yet he 9 Minutes :

10 lived an extremely flamboyant lifestyle with extravagant gifts to his many male 9 Minutes :

17 friends and protegees and you mentioned of course the two very very expensive parties you're much more polite and 9 Minutes :

25 beating around the bush let me put it the way it is Larry King was a very evil person who stole money was involved in 9 Minutes :

30 child abuse Satanism and all these other things that's what this book documents he was an evil person he had a lot of 9 Minutes :

36 other people connected with him he did not act alone he was protected and his little time 9 Minutes :

44 he's going to spend in prison is probably nothing more than a a respite and I'm sure he's going to be well taken 9 Minutes :

51 care of when and when he comes out Larry King was merely a functionary of a lot 9 Minutes :

57 of other people doing a lot of bad things so this whole business of the 10 Minutes :

02 Franklin cover-up then has been operating virtually from the beginning 10 Minutes :

07 although in the initial stages the World Herald was making some noises like being investigative in there the World Herald 10 Minutes :

14 wrote more on supposedly according to them and I'm repeating them they wrote more on Franklin than they have on any 10 Minutes :

20 other subject in the in the history of the World Herald that's their statements as I recall so yes but as I try to 10 Minutes :

28 document they were half-truths they were designed for a purpose they were 10 Minutes :

34 designed to complete the cover-up so you know they had a big interest not only was Harold Anderson a centerpiece of 10 Minutes :

41 this activity of Franklin damn him the pre-fill things and and the allegations and accusations but but another key 10 Minutes :

47 individual there among others and I'm sure there's more than just another key no but Peter citron right remember when 10 Minutes :

52 I named him in the memo I named Peter Citroen and and the word was out well 10 Minutes :

58 they were going to use Peter citron was gonna be the one that comes out and sues John decamp for saying these horrible 11 Minutes :

03 things about him I don't know if you remember at the time but that woman that was how was the message that was delivered to me well unfortunately Peter 11 Minutes :

11 ran into some problems himself because when families in the Omaha area who 11 Minutes :

18 children associated with with Peter citron regularly when their mothers 11 Minutes :

23 would confront these little boys and I'm talking about little boys you know anywhere if they're 9 to 15 or whatever 11 Minutes :

30 is it these terrible things they're saying about Peter citron is any of this 11 Minutes :

35 true is and they you know our mother can be a pretty strong force when she gets concerned about someone starts 11 Minutes :

41 confronting her her young boy of one after another the little boy started pouring out the tales of what was going 11 Minutes :

47 on and so the police and and the people who who would have who were claiming 11 Minutes :

53 Peter was as innocent as the driven snow they were they had no choice they had to 11 Minutes :

59 deal with the fact and so they seized I guess thousands thousands of documents 12 Minutes :

06 of upwards yeah probably over 10,000 bit you know and I talked to the judge you know after the 12 Minutes :

14 whole trial was over and Peter was sentenced it was a very quick deal where he quickly pleaded guilty in and then 12 Minutes :

20 was put in the mental health place mm-hmm he's a judge said it was the most 12 Minutes :

25 frightening shocking child abuse things he had ever seen his entire life or even 12 Minutes :

31 hurt or even couldn't believe it existed so of course under those conditions Peter was not in a very good position to 12 Minutes :

37 claim he was as pure as the driven snow and Sue me and the next thing that 12 Minutes :

43 happened of course was as I recall the grand jury pretty well quickly formed unfortunately the grand jury in my 12 Minutes :

50 opinion I'm giving my opinion right in my opinion and I think I've offered the documentation to support it if anybody 12 Minutes :

56 wants to read it the documentation the World Herald of course didn't they they give the other side which which is I 13 Minutes :

02 guess they're right as a newspaper the documentation to support the the grand jury was merely a very very carefully 13 Minutes :

09 crafted piece of the cover-up an essential piece and their honor just you 13 Minutes :

15 just continued Jim speaking of the but anyway to answer your question that we 13 Minutes :

20 started this whole conversation he said well why'd you write the book or something I'm gonna try to call I'm gonna read you three of the opening 13 Minutes :

27 paragraphs in the book then tell you a quick story because they pretty well tell you why I wrote the but because I'm the last person on this 13 Minutes :

33 planet who I ever thought would be writing a book when you opened you said the latest book rest assured it's my 13

Minutes :

39 only book at least at this point and who 13 Minutes :

44 knows may write another one someday but here's how it opens as I say I'm just gonna take a couple minutes and read 13 Minutes :

49 this because because I think it'll tell you why I whoo-hoo wish I'd never heard of Franklin I'm sitting here writing a 13 Minutes :

56 book trying to document that some of my closest friends over the years are part of a massive cover-up and that's what 14 Minutes :

03 I'm doing I'm destroying friendships one on another I'm destroying myself in a very real sense you know what 9 14 Minutes :

08 certainly financially I just I just had no choice at some point ok so here's how 14 Minutes :

13 it starts what do Ronald Reagan President George Bush former CIA director William II Colby Democratic 14 Minutes :

20 presidential candidate Bob Kerry billionaire and second richest man in America and now head of Salomon Brothers 14 Minutes :

26 Warren Buffett and Ronald raskins the current administrator of the agency for international development all have in 14 Minutes :

32 common I asked my close friend and advisor William Colby one day in 1991 I 14 Minutes :

37 give up former head of the Central Intelligence Agency CIA Colby said what 14 Minutes :

44 could that group have in common three things I replied all of them a burden at times for those who have to carry them 14 Minutes :

51 the three things are me John decamp a case called Franklin and a man named 14 Minutes :

58 Larry King and then I go on in this very brief opening forward to explain why I 15 Minutes :

04 was with Colby he's friend advisor going back to Vietnam days I was in Washington 15 Minutes :

10 standard his place and I was telling him you know I received these threats and he 15 Minutes :

16 was somewhat familiar with Franklin he he had received national press and and I think he had a lot more knowledge than 15 Minutes :

22 I'll ever know he had but anyway he was warning me to get away from it to stay 15 Minutes :

28 away - leave it alone to not touch it anymore and I said wait a minute bill 15 Minutes :

34 you know how can you walk away from something when you know terrible things are happening when you know institutions 15 Minutes :

40 of government and we all rely on that there being corrupt yeah it's a real pageant and then he 15 Minutes :

48 said to me he said John sit down just it's just cool off and relax and Sully his wife was there Sally by the way was 15 Minutes :

53 I think ambassador to more countries than any other person has ever been in the history of the United States 15 Minutes :

59 appointed by Carter so Sally's got a little little heavy 16 Minutes :

05 duty things herself and she was listening and nodding her head and agreeing with Bill bill says let me tell 16 Minutes :

11 you my personal story because maybe it'll have a message for you there and he says you know last night I returned 16 Minutes :

17 from Russia now this is the former head of the CIA under President Nixon and President Ford and he sitting me down 16 Minutes :

24 and telling me that with that I I just 16 Minutes :

31 better listen he says last night I returned from Russia is what was I doing in Russia he said I was there and 16 Minutes :

37 remember this is three weeks three weeks before the Gorbachev coup that hmm 16 Minutes :

44 changed Russia forever tonight the collapse of Russia he said I was there in Russia with kind of a secret group of 16 Minutes :

50 people whose names you would instantly recognize and those powerful people from all over the world names like myself you 16 Minutes :

57 know Colby had the CIA he said we were there to save Russia from a revolution 17 Minutes :

03 when and if it collapses so that it doesn't explode into World War third 17 Minutes :

08 world war he said this what were you doing trying to actually work with the people we had been defeating to prevent 17 Minutes :

14 a revolution okay and he says it was the night before I was due to come home he 17 Minutes :

20 said last night he said I was in my hotel right there on Red Square the most 17 Minutes :

26 sacred place in all of Russian d'amore communism he said and I couldn't sleep and I got thinking about just how 17 Minutes :

33 significant these world events were that were occurring he says so I decided what excuse me what they have I'm just gonna 17 Minutes :

40 go for a walk he said I knew that was forbidden because you know you can't just go walking around Red Square in the middle of the night particularly the 17 Minutes :

46 head of the CIA spent 40 years trying to destroy Russia he said but I thought I'd see how far I can get he says I walk out 17 Minutes :

52 past the guards nobody's paying attention so I go out of the hotel then I am in Red Square and from 17 Minutes :

57 the tomb of Lenin walking up to the doors of the Kremlin itself he said 18 Minutes :

03 nobody cared nobody was paying attention here was the head of the CIA the most 18 Minutes :

08 hated the most feared enemy that communism had over the years bill Colby head of the CIA during the most critical 18 Minutes :

15 time he said in it then it struck me he said that I realized it he said we'd won 18 Minutes :

24 the Cold War was over Russia was dead communism was dead he said after 40 18 Minutes :

30 years and Reverend Weezer his words not mine now he said after 40 years of fighting the bastards we had won we won 18 Minutes :

39 it was over the Cold War was Dunnan and I was the only one of the whole planet to recognize know it right then at that 18 Minutes :

46 instant and then he said something else struck me something something to just really slam me I said well what was that 18 Minutes :

53 he said I realized that this walk I was 19 Minutes :

02 having in Red Square was it that was the only parade I was ever going to have for 19 Minutes :

09 all our achievements there wasn't gonna be the ticker tapes down Madison Avenue there wasn't gonna be the the waving and 19 Minutes :

15 he said it was all over and we'd won and this was my private parade and it was 19 Minutes :

20 the only one I said okay bill now we've heard about your private parade in the defeat of communism so on so what's that 19 Minutes :

27 got to do with Franklin and this whole mess I'm trying to get something he said 19 Minutes :

32 sometimes you better face up to the fact and this is one of those times that the things you're involved in have have 19 Minutes :

39 significance and people too big too powerful events and things involved you 19 Minutes :

44 don't even know about that are just too big and powerful for you to deal with and you have to face up the fact that 19 Minutes :

50 maybe in in the timeframe you'd like to deal with them and the way you'd like to 19 Minutes :

55 do and can't be done he said then sometimes evil does succeed for a while and that's just you have to walk away 20 Minutes :

02 from it get away from it and he says the only way Franklin will ever get exposed and where it leads to and what it goes 20 Minutes :

07 is if the national press an independent national press just like happened in Watergate happened in iran-contra happened happening with old 20 Minutes :

15 Joe McCarthy at the independent national press really gets interested and delves 20 Minutes :

21 into it and takes it all the way to where it leads is there such a thing anymore in this country see that that's that's why I said I said well how do you 20 Minutes :

27 do that bill he says I'll help y'all I know something he's called notified a number of people he says the problem is 20 Minutes :

33 getting one of them to really put the investigative research and reporters onto it and not having back off and 20 Minutes :

38 where it leads well so I went home thought about it was frustrated and I 20 Minutes :

45 thought okay I'll do my part to start it all right the story of Franklin as a 20 Minutes :

50 documentary as a documentary with the things that are available right now today that show there was clearly at 20 Minutes :

57 least again in my opinion a cover-up I won't mince words I won't hedge things I'll spit it out 21 Minutes :

03 straight and what it cost me it cost me but at least the foundation will be 21 Minutes :

09 there and of course since since writing the book I've learned a lot more I now 21 Minutes :

17 believe I think I'm beginning to understand maybe a little more of what bill was saying and where this thing 21 Minutes :

22 really does lead and I I think now I'm finally understanding why it's so 21 Minutes :

27 powerful where it leads as I say and I think it leads into things that almost 21 Minutes :

35 move into the fantasy world that we went to movies and watched and in the 60s and 70s and 80s in other words the mysteries 21 Minutes :

42 of the Cold War battle and how far governments go with their secret 21 Minutes :

49 services whether it be the CIA or or the Gestapo or the KGB in Russia and I 21 Minutes :

58 believe and I know this sounds like I'm floating off into Fantasyland right tyro 22 Minutes :

03 can bring you back here you're right and I dimin the first one a few years ago to say well yeah make good movie but you 22 Minutes :

11 aren't gonna believe any of this here's what I believe I believe that Franklin 22 Minutes :

19 had a lot of personalities who through one way or another were linked up to the 22 Minutes :

26 cold war effort the CIA and other things back during the 70s and 80s we ran 22 Minutes :

31 across some information about Larry King in one point that it looked like that he 22 Minutes :

36 had at one time had some ties with the CIA he did and I document some of those in the book but beyond that information 22 Minutes :

43 I've learned since I wrote the book I have no doubt now no doubt Larry King was one of the underlings of the CIA 22 Minutes :

49 involved in a specific program recruiting particularly young boys particularly kind of a particular kind 22 Minutes :

57 of boy who were then used in a kind of mental programming a brainwashing if you would that we were doing to use them for 23 Minutes :

07 such things as assassinations such things as drug dealing remember drug 23 Minutes :

12 dealing hmm back during the 70s and 80s we now know pretty well was one of the main methods to finance our covert 23 Minutes :

20 operations we were actually involved in in drug dealing and even even even a lot 23 Minutes :

27 of those things that sounds like sex blackmail so on and so forth at least yeah mind-control thing now as they say 23 Minutes :

33 sounds off anybody's listening I think yeah Adi camp is off with the Lulu Birds 23 Minutes :

40 you know like Manchurian Candidate you remember that old movie were they yeah well I guess what I'm saying is I think 23 Minutes :

46 that is a integral part of this if you have that kind of thing at stake predicting because the personalities 23 Minutes :

53 that it goes up to ultimately mm-hmm the American public would be shocked to find it yes our government really really did 23 Minutes :

58 these things same thing we accuse the other guys are doing which they were doing too well Congress investigated that back in the early 50s and the CIA 24 Minutes :

06 yeah but remember this a sophistication of the 50s was nothing compared to what it was in the 70s and 80s this is post 24 Minutes :

13 Vietnam we had suffered our worst defeat in the history of this country our only defeat we now we're not gonna let it 24 Minutes :

18 happen again between 75 roughly and 86 roughly was 24 Minutes :

24 the most intense Cold War period in this country I mean it was just that close to 24 Minutes :

30 a hot war at all times we always think of the Cuban crisis is the time not really seventy-five to eighty six remember the 24 Minutes :

37 evil empire remember Star Wars remember the contest to see who could build up faster that's 24 Minutes :

42 what finally broke the Russians they just couldn't keep up in the contest financially so that was the period when 24 Minutes :

50 technology was going rampant remember the invention of the computer the understanding of the human mind so much 24 Minutes :

56 more and the information I've learned since the book came out that is poured 25 Minutes :

03 in from a variety of sources makes me believe that that may well be why it's 25 Minutes :

09 necessary for the protection of our entire government in a sense embarrassment what people would believe 25 Minutes :

16 what people would feel about their government if they knew some of the things that we had done profilers the 25 Minutes :

21 motives for the cover-up I think that's one of the major motives he says people just protecting themselves other people 25 Minutes :

27 of course have a vested interest of all a child abuser these kind of things 25 Minutes :

33 you're certainly willing to cooperate if you are a if you're a judge or an 25 Minutes :

39 official who got your position as a result of help from this or that 25 Minutes :

44 remember another surprised and this I'm now convinced of which I didn't know when I wrote the book off at Air Force 25 Minutes :

51 Base if you're gonna pick the most sacred military installation in the United States for the last 140 years 25 Minutes :

58 where is it it's off at Air Force Base right in the center of the United States what land USA the farthest you can get 26 Minutes :

03 from Russia mmm-hmm well I am convinced now that there was a major CIA operation out of 26 Minutes :

12 there handled there and of course Omaha the Heartland at least likely place in the world to have something like this 26 Minutes :

19 that's a major part of this Larry King was merely a tool in this whole thing 26 Minutes :

24 you watched ring during the Larry King activities remember whenever whenever 26 Minutes :

30 something would happen wear it wear something well he might like he was gonna go to Bush and get this thing 26 Minutes :

36 straight now remember it's right at breakfast they grab Larry no he's off declared crazy then we get things back 26 Minutes :

43 under control Larry King comes back and what and we get them off again in these crazy yeah then finally we we get things 26 Minutes :

51 contained we get to grand juries we never call Larry King and the grand juries or anything else and then Larry 26 Minutes :

57 King ends up in a very quick quiet plea having nothing to do with any of the things except he stole some money yeah 27 Minutes :

04 okay and then he gets sentenced but when all things are considered he'll be out in a relatively short time anything one 27 Minutes :

10 of probably what's considered the nicest federal institution they call it the Holiday Inn of institutions bundles of 27 Minutes :

17 money stashed away in foreign by well I suspect Jamaica in Spain and in 27 Minutes :

22 Switzerland it's so it's it's it's in the interest if indeed I'm correct and and and I don't do this in the book I 27 Minutes :

29 don't deal with the things I'm talking about now quite frank I'm gonna have to cut you short at those point John because we're really out of time on this 27 Minutes :

35 particular program we're going to pursue this on our next program so keep those 27 Minutes :

40 thoughts in mind we'll come back to them but I want to take this opportunity to have our viewers write for this book the 27 Minutes :

47 Franklin cover-up and I have read it cover-to-cover and it's accurate I know 27 Minutes :

53 from our own research that there isn't anything in here that is absolutely not documented and verified from a lot of 27 Minutes :

59 different sources the book is also available in the local bookstore and you 28 Minutes :

05 can go in and buy it for seven dollars and 95 cents we will send it to you post paid for nine dollars so if you'll just 28 Minutes :

13 write to the address on your screen that's showing right now send us nine dollars we'll be happy to send you this 28 Minutes :

18 book and you can read the facts for yourself and make your own decision concerning the cover-up we we really 28 Minutes :

26 recommend this highly and we would like to get a distributed as broadly as we possibly can so that the true story of 28 Minutes :

32 what went on with this Franklin case finally finally comes out in the open we're committed to seeing that happen we 28 Minutes :

39 know you are too John and so we're going to do whatever we can to keep at it 28 Minutes :

44 until this thing breaks open do just for our viewers today have any closing remarks for this program concerning what 28 Minutes :

52 you believe would be helpful for them to do to assist in getting this information out 28 Minutes :

58 you know you've heard that phrase a hundred times truth is stranger than 29 Minutes :

04 fiction I finally understand it it's a classic statement it's classically true 29 Minutes :

10 read the book try to tear it apart try to tear it apart say well this can't be 29 Minutes :

16 and then do some checking yourself I think you're gonna be surprised and then 29 Minutes :

21 share the book with your friends and you know before it's all said and done I said something in the book and I believe 29 Minutes :

27 it more and more now there should be another grand jury this one that isn't 29 Minutes :

33 rigged and controlled that has an independent honest prosecutor to 29 Minutes :

38 investigate the whole original grand jury and everything surrounding it that's what I believe and maybe citizens 29 Minutes :

44 can can get a petition and do that that maybe ultimately the one thing they have the ability to do and let's do it well 29 Minutes :

52 we hope that we can John and thank you again for being with us folks thank you for being with us today and we'll be 29 Minutes :

59 back with you on our next program 30 Minutes :

24 hello I'm John Morrow and with me again today is our guest John de Kamp John's 30 Minutes :

30 the author of a new book entitled the Franklin cover up child abuse Satanism and murder in Nebraska we're putting

the 30 Minutes :

39 publishers address up on the screen for you AWT publishing of Lincoln Nebraska 30 Minutes :

44 and you are invited to send your enquiries to them as a matter of fact 30 Minutes :

49 you can send your money to them seven dollars 95 cents plus postage and they will be happy to mail you the book or 30 Minutes :

56 you can write to us and we'll be happy to do the same John when we closed our 31 Minutes :

03 last interview we were talking about some really wild and wonderful things but I think that the title the Franklin 31 Minutes :

11 cover up really invokes a lot of ideas 31 Minutes :

16 in people's minds of conspiracies and things like that and this whole thing 31 Minutes :

24 about cover-up and hoaxes and all that seemed to come from the grand jury now 31 Minutes :

30 in our book entitled a carefully crafted hoax we really zeroed in on the grand 31 Minutes :

36 jury findings and also the people that they were dealing with Troy Bonner and 31 Minutes :

42 Danny King and militia Owen Paul Benassi we didn't get into a lot of the 31 Minutes :

48 background that you did because you really spread a lot further afield and we did but I think for our viewers 31 Minutes :

54 information it'd be good for us to explore just how grand jury operates a 31 Minutes :

59 lot of people have the idea that it's it's like a courtroom situation you know you go in before the judge and you 32 Minutes :

04 present the pros and the cons and got the prosecutor in the defense then you've got the jury sitting there to 32 Minutes :

10 decide okay we've heard both sides of the story now we make up our mind as to what is 32 Minutes :

15 the truth and they find the defendant either innocent or guilty and so on but my understanding is that's not at all 32 Minutes :

20 how a grand jury operates and so I think it'd be helpful for our viewers if you just give them some background 32 Minutes :

26 information on the process well interestingly enough a grand jury is 32 Minutes :

31 exactly the opposite of what you've described and a grand jury can be the 32 Minutes :

37 wonderful device or the worst device depending depending literally upon who's 32 Minutes :

45 in charge of it and how they handle it now let me give you a little background on the grand jury just just so we understand it can be wonderful because 32 Minutes :

53 sometimes it can do what what individual prosecutors won't do or are afraid to do 32 Minutes :

59 or it can do what a citizen might be afraid to do individually that is in 33 Minutes :

04 complete safety and secrecy it accuses somebody of something so the purpose of 33 Minutes :

11 a grand jury is strictly that to either accuse or not accuse somebody or some 33 Minutes :

16 entity of some crime okay it isn't to try to see both sides of the question at 33 Minutes :

23 all that isn't the issue the controller the man in charge woman in charge whatever of a grand jury is of course 33 Minutes :

30 the the prosecutor or a special prosecutor in the Franklin case and the bid was kind of great completely control 33 Minutes :

36 what's presented to the jury the second maybe most important person well would 33 Minutes :

42 be the grand jury foreman mm-hmm the grand jury foreman selected from among the members so people have to get out of 33 Minutes :

49 their head the idea that there was a trial in a grand jury or that both sides were presented or anything else quite the contrary 33 Minutes :

55 the purpose is to get information and and make an accusation and see if that person in a court man later can defend 34 Minutes :

02 themselves against this act so in effect what the special prosecutor in this case it was samuel van pelt but the special 34 Minutes :

09 prosecutor then presents information that he chooses to present he can do 34 Minutes :

14 literally anything he wants pretty much to the grand jury and his purpose is then to really accuse or seek an 34 Minutes :

23 indictment yeah and so that's his purpose then is to really but but I touched on a point I 34 Minutes :

28 said it can be the worst or the best thing you can do some things that that maybe wouldn't get done otherwise but 34 Minutes :

34 the scary thing about a grand jury remember everything is supposedly well is secret mm-hmm and that's the idea 34 Minutes :

40 that gives that gives you the safety of walking in there and saying well yeah I know this but man I'm afraid to say any 34 Minutes :

47 other thing you know okay so that's a protection and supposedly everything in that grand jury is kept secret maybe forever mm-hmm in fact I 34 Minutes :

54 have seen the documents I'm not allowed to tell you I wish I wish everything in 34 Minutes :

59 that grand jury and a lot more could all be made public just like in the in the the Kennedy thing they're talking about 35 Minutes :

05 I think I think in this case as I've tried to document very clearly in the book the grand jury was used for their 35 Minutes :

12 the purpose when things started getting out of control and Franklin should recall rumors everywhere the decamp memo came out the lid was 35 Minutes :

19 blowing off Peter citron his deal comes out one thing after another coming out day by day he had to get things under 35 Minutes :

25 control again legislature was putting heated legislation fitting what do you do you call a grand jury and that could 35 Minutes :

31 still be wonderful if they had had in my opinion a a proper grand jury I don't 35 Minutes :

37 think they did again my opinion so there is there any possibility that those records would ever be opened or unsealed 35 Minutes :

44 maybe another grand jury could investigate it and that might be one of the outcomes I don't know but let me let me tell you something people forget you 35 Minutes :

52 know what the public has about a six-month memory they say to remember something called Watergate mm-hmm if 35 Minutes :

59 you'll go back and study Watergate the heart of Watergate the control mechanism used was a grand jury mm-hmm other words 36 Minutes :

08 when it started the lid boiling off accusations flying and it really started 36 Minutes :

14 looking like it was out of control just a month exactly the same thing here they called a federal grand jury special 36 Minutes :

20 prosecutor a special prosecutor they cleared everybody said no there's 36 Minutes :

25 nothing wrong it really is just you know a third-rate burglary and so later later as the final Watergate thing unfolded 36 Minutes :

33 and the truth came out I'm gonna kick up years later somebody kept pursuing it in this case it was the press mm-hmm okay 36 Minutes :

40 they went back and they asked the people in the grand jury you know wait a minute yours you were honest people and most 36 Minutes :

46 grand jury members are yes well yeah well how come the grand jury never got 36 Minutes :

52 any of these things you know what they found out exactly what I'm telling you happens and didn't ever heard about it 36 Minutes :

59 we never heard about anything with things the prosecutor never asked those questions of anybody 37 Minutes :

05 well that's why I say grand jury can be the best or worst device it can be a you 37 Minutes :

10 device the key device used for cover-up in big things or the device to expose it 37 Minutes :

16 and finally correct him I believe in this case and I offer a pretty good documentation I believe I hope more will 37 Minutes :

21 come out in the future that this grand jury was for the purpose of covering up and not because the prosecutor no no the 37 Minutes :

30 jurors could be the most sincere honest people in the world I suspect most of them were but let me use another example 37 Minutes :

37 if you go over to North Korea today which is a totally completely controlled 37 Minutes :

43 Society they believe that their guy whatever his name is is just a kin to a 37 Minutes :

49 God the only information they got via the newspaper via the press via everything thing you know is what is fed 37 Minutes :

55 to them right you can brainwash the entire country well certainly in a very small confined grand jury of 18 people if you present 38 Minutes :

02 them only one side of a picture you can make black light up down right left good 38 Minutes :

08 bad etc I feel comfortable in saying 38 Minutes :

14 that's what occurred that's what occurred in Watergate that's what 38 Minutes :

19 occurred here one of the things that we're recently reminded of with respect to juries and their findings is that juries do not always find according to 38 Minutes :

29 the the facts of the case even though they can be presented the facts of the 38 Minutes :

34 case they can find out I'm gonna pick one little piece to show you and I can legally do this one because it's a matter of public record now I can't tell 38 Minutes :

41 you how and other things I'd love to because I'm legally forbidden and that's why I say I think our grand jury rules 38 Minutes :

47 in Nebraska maybe need some changing too we have probably the worst in the country that's a goal that we can shoot for that's that's definitely one but 38 Minutes :

53 anyway the grand jury did something that grand juries normally don't do and I don't think are legally supposed to do 38 Minutes :

59 that is they wrote this lengthy report where they supposedly named names and cleared everybody and said this is a 39 Minutes :

06 good guy and then they went off and without indicted or accusing these people of any crime just called other people names from from 39 Minutes :

14 victim witnesses two individuals out in the community to people like me who were saying the institution government 39 Minutes :

20 corrupt anybody they could they called a name who was saying there's something wrong it sounds like a scare but one 39 Minutes :

27 other thing they did and as I said I can cite this example I can cite this example because it's a matter of public 39 Minutes :

33 record I want to make that clear because I am forbidden from revealing 80 jillion other things but I would love to in the 39 Minutes :

41 grand jury report the grand jury said about the witness Paul Benassi they said and even his psychiatrist says he is 39 Minutes :

48 incapable of telling the truth mmm right I remember reading that it is headlined in the World Herald the 39 Minutes :

54 picture and then what assi indicted was his name Paul Benassi right they said if 40 Minutes :

01 you read the grand jury report and you read the thousand times it must have been printing the World Herald on the front page and otherwise saying this 40 Minutes :

08 they said you'd immediately conclude first of all his grant his psychiatrist his own psychiatrist testified before 40 Minutes :

15 the grand jury and said well you know it's too bad but this kid's incapable of telling the truth that's exactly wrote it in the grand jury report you read it 40 Minutes :

22 right now here's the truth here's the truth 40 Minutes :

30 one he had no psychiatrist yes we know that to the psychiatrist that they're 40 Minutes :

37 referring to and talking about was a police psychiatrist the police investigating the kid right three most 40 Minutes :

44 shocking of all the psychiatrist never ever testified before the grand jury 40 Minutes :

51 right and four and here it is the very psychiatrist that they claimed testified 40 Minutes :

57 before the grand jury the very psychiatrist he said was his who wasn't the very same psychiatrist who they said 41 Minutes :

04 said this kid is incapable of telling the truth in fact under oath repeatedly before the 41 Minutes :

11 legislative committee publicly now and otherwise says the precise opposite that 41 Minutes :

16 he's telling the truth and he's probably incapable of telling a lie yeah he was 41 Minutes :

21 the one that diagnosed the boy right as having multiple personality and said one of the characteristics of this is that 41 Minutes :

29 you don't have to lie typical MPD's multiple personality disorder which I didn't even believe 41 Minutes :

34 existed didn't understand and now I I it's amazing as you well know but anyway 41 Minutes :

40 he's one of the characteristics is it they don't they don't have to lie they 41 Minutes :

46 simply moved to another personality the person comes out and they tell the truth okay so I used this one classic example 41 Minutes :

52 out of the grand jury because it so illustrates how black can be made to white how up down left right now what 41 Minutes :

58 happened to the kid they indicted him for lying I agreed and after being 42 Minutes :

04 contacted by some people to go see the kid and act as his lawyer at his request I did and after I started looking at the 42 Minutes :

09 facts I made a statement I made it repeatedly and I made it boldly an and 42 Minutes :

15 maybe foolishly even but angrily I said I dare him I dare him to take this kid 42 Minutes :

21 to trial they had him charged with felony after felony after felony because he said he was abused by by prominent 42 Minutes :

27 people including the publisher of the world held that that he was here on this date with these people that he saw Alicia Owen they indicted and for all 42 Minutes :

33 these things they said her lies I said Darren my begum take him to court 42 Minutes :

39 there's really nothing that's been one day due in court in this whole deal nothing you know in court I'm anything anyway so what 42 Minutes :

45 they do when we were ready they simply dismissed all the charges just drop the 42 Minutes :

50 whole thing not only that but two other two other psychiatrists experts were 42 Minutes :

56 brought in not by the kid because he'll he couldn't afford it but by the 43 Minutes :

01 legislative committee hired an expert from New York to come in yes I remember the court in in Omaha ordered another 43 Minutes :

07 psychiatrist a specialist in to come in they both examine the kid at length 43 Minutes :

13 investigation after investigation you know what they concluded what they said yes I said exactly the same thing the 43 Minutes :

21 other night he said a multiple personality and this kid is telling the truth he's a victim of horrible abuse 43 Minutes :

28 he's not lying on and on and on the very very same thing threw him in a row so as 43 Minutes :

34 I say that's why I say I dared him I begged him to bring him to trial so a grand jury get back to where we were a 43 Minutes :

40 grand jury it can be a wonderful thing or it can be a device for abuse and coverup but essentially the grand jury 43 Minutes :

47 just simply takes the information that's presented by the prosecutor he's in control of the process and it can turn 43 Minutes :

53 out about any way he decides it to turn out just simply by his choice of what to present and what not to present well let 44 Minutes :

00 me give another example because I live this one about 27 times every day as soon as I get home I come walking into 44 Minutes :

05 the house my little three-year-old comes running up to me and grabs my leg and 44 Minutes :

10 hugs me and I pat him on the head and he says and it hit me well a no real name 44 Minutes :

18 Shonda is my nine year old and I said 44 Minutes :

24 well did you do something to her oh no no no Anna hit me no reason Hill so you 44 Minutes :

30 check a little further and you talk to Anna and you find out well but Johnny 44 Minutes :

35 took her pencil and broke it and smeared paint all over her wall in her room and she caught him in the act and hit him on 44 Minutes :

42 the behind the behind and I then turned to Johnny said wait a minute Johnny were 44 Minutes :

48 you and were you in her room making all this mess and but way yeah but she hit me and that's now if I had only listened 44 Minutes :

56 a little Johnny when I go home why every night I'd walk in and I'd say Hannah Shanta I'm tired of you beating 45 Minutes :

02 little Johnny you've got to stop that you're bad well then I get into the living room by about this time and Tara 45 Minutes :

09 my 7 year old comes running up to me and she says Jenny who's my 1516 year old now she she won't let me practice piano 45 Minutes :

18 in the basement well I want I want Tara to practice her piano because it's 45 Minutes :

24 important if she's gonna learn to plunk and make a racket like all the other kids that she'd be able to do it I said 45 Minutes :

31 well did you do anything wrong no no no I didn't do anything wrong she just won't let me play down here she won't 45 Minutes :

37 let me practice well so then maybe when you check a little further you find out that it wasn't quite that way maybe she 45 Minutes :

45 was down there practicing and making a racket that Jenny couldn't do her 45 Minutes :

50 homework and she really wasn't practicing so much as she was watching television and a whole bunch of other 45 Minutes :

56 things and Jenny finally got tired and ran around of the basement so as I say when you get the whole story you might 46 Minutes :

02 come up with a completely different conclusion truth is somewhere in the middle or in a lot of cases even the 46 Minutes :

09 opposite the one visible example and there's gobs up that I can give you of a grand jury legally on the most visible 46 Minutes :

16 thing of all was their key indictment charging perjury of this kid hmm and them actually lying in their report so 46 Minutes :

23 now they didn't lie deliberately I don't think the grand jury did they were deceived right you were deceived they 46 Minutes :

29 were deceived or they couldn't have written that they couldn't have dared to write something like this for for a report that they know is going to be 46 Minutes :

36 examined they didn't have 18 people of a grand jury sit and lie about that even 46 Minutes :

41 though it's completely false that means they were deceived who deceived him who's in charge of a grand jury the 46 Minutes :

47 prosecutors in this case when the person to run the grand jury was picked 46 Minutes :

52 literally everybody who was anybody who knew about the judicial process who knew about grand juries what was at 47 Minutes :

00 stake condemned the selection yes I remember them you remember that they said you know something bad can happen 47 Minutes :

08 it probably will happen as a all of this this is not right this person shouldn't be picked sure enough 47 Minutes :

13 now sure enough he got picked and sure enough so a grand jury can be the best or worst thing and in this case it was 47 Minutes :

20 the worst thing and there's so no part of the cover-up yeah I saw an article in the paper just this last week and just a 47 Minutes :

27 little short thing a couple of inches and it had to do with a Supreme Court finding in a case that involved a grand 47 Minutes :

36 jury and it's indictment and they specifically said the grand jury is not 47 Minutes :

42 required to listen to both sides of an issue oh that was US Supreme Court they 47 Minutes :

48 reaffirmed the fact that hey they're not there to listen to sides and Jerry to get facts they just thrown the holders 47 Minutes :

54 there they're there tonight in accusatory information and anything that and they specifically said like I told 48 Minutes :

01 you they ratified the fact they they approved once again that the prosecutor doesn't have to tell 48 Minutes :

09 him he can deliberately for whatever reasons hide right all the reading of 48 Minutes :

15 the stories and evidence that might might confirm that the individual would 48 Minutes :

20 be innocent could be hidden by the special process grand jury if I were going to use a good example is like a 48 Minutes :

26 knife I can take that knife and I can Ram it in your heart and it's not gonna 48 Minutes :

32 be used very wisely at least most people would agree with that well I can take that knife and I can use it to cut bread 48 Minutes :

38 I can use it to to help fix my meals at home this kind of thing it's a tool it's 48 Minutes :

44 a device that can be used or abused and exactly the point we want to make it is a tool in the hands of the special 48 Minutes :

52 prosecutor and can be used for whatever purpose he designs and if you have a 48 Minutes :

57 corrupt prosecutor you're gonna get mixed results no you're gonna get bad 49 Minutes :

02 results and if you have a system as in 49 Minutes :

08 the Franklin case with so much at stake going so high up involving such serious matters for very powerful rich and 49 Minutes :

14 prominent people then they have the ability apparently at least in Nebraska 49 Minutes :

19 to control who that prosecutor is and make sure they put in somebody that will do what they want I believe that's what so 49 Minutes :

25 this cover-up really went at several levels one of the things that you mentioned in your book is that one phase 49 Minutes :

31 of the cover-up involved the police and then we've just talked about another phase which involved a Douglas County 49 Minutes :

37 grand jury another phase involved the FBI would you want to make a comment on either the phase that involve the police 49 Minutes :

44 which would include not only the remember the police or the State Patrol 49 Minutes :

50 or any of these agencies are going to back off in a hurry when the FBI staff steps in and says hey this is the way it 49 Minutes :

57 is we're handling this you bug out in this particular case as I think I've pretty well documented the FBI had ample 50 Minutes :

03 reason ample reason the reasons probably will never even know for not wanting 50 Minutes :

08 certain things to come out everything the way it was handled in this case one after another you never have you never 50 Minutes :

17 have things handled in such a way that the public ever really gets access to information it's always controlled information and in this case I believe 50 Minutes :

24 the FBI maybe even arguing for reasons of national security that seemed to be the big argument they always used for a 50 Minutes :

31 lot of things while national security is at stake if indeed if indeed drug 50 Minutes :

37 laundering drug money running and laundering of money for use in covert operations by the until via the 50 Minutes :

44 Intelligence Committee was involved here and I guess I no longer have even a shadow of a doubt that's that's what's 50 Minutes :

50 at stake and it involves prominent people who who who we know you know it's 51 Minutes :

00 easy and and quick for the FBI or high 51 Minutes :

05 officials say this involves national security you don't need to know you don't want to know what's what's at stake just take our word for judges are 51 Minutes :

12 gonna listen police are gonna listen prosecutors are gonna listen well I saw this saw this process at work here and 51 Minutes :

18 let me just get going with this in when the attorney general's office was supposed to be investigating the 51 Minutes :

24 allegations of sexual abuse that surfaced early on and the Franklin thing and they had assigned to the attorney 51 Minutes :

30 general's office assigned one of their special investigators to look into it and then he'd met with the Omaha Police 51 Minutes :

35 Department then six months later nothing had still been done about it and it became apparent that what he had done was he 51 Minutes :

42 had simply backed off because he was convinced that the Omaha Police Department was handling the 51 Minutes :

48 investigation and he didn't want to cross their tracks and mess up their case etc etc so that same thing 51 Minutes :

54 supposedly then could have been at work with the police department if the FBI comes in and says we're looking at this 52 Minutes :

00 and so you back off and so the police department backs off and the FBI says this is our deal we have several 52 Minutes :

06 instances where witnesses and potential witnesses were actually intimidated in 52 Minutes :

11 their questioning by the FBI yes and I think a document at least three or four the ones I legally can know about as 52 Minutes :

18 clear as anything's ever been documented and that that if after you read that and read those documents and those aren't my 52 Minutes :

24 words I didn't create these documents no you're just reporting I'm just reporting them this is a documentary book but you 52 Minutes :

31 know I know when you start talking about Oh God but you mean Franklin involves a 52 Minutes :

38 drug running and kind of feeling blah blah blah even national security things 52 Minutes :

43 they might be trying to cover up people think yeah yeah sure right and the moon is made of cheese and on and that was my 52 Minutes :

51 attitude believe me it was now I have no doubts and and the hardest thing for me 52 Minutes :

56 is to to know something and you know not be able to impart it in and say yeah in 53 Minutes :

03 this case the moon is made of cheese and here's so I try in the book to offer as much documentation as possible now the 53 Minutes :

10 point I was trying to get to here is a few pieces that we do know a few pieces that we do know the years ago people 53 Minutes :

17 like me used to deny mm-hmm love didn't let me give you one what was the thing 53 Minutes :

23 we heard so often in the newspapers accusations from let's say a Fidel Castro or some communist country one of 53 Minutes :

30 the most often made accusations was well this news reporter here is really a CIA 53 Minutes :

36 operative hmm Yeah right you say ah I mean shoot they accuse 53 Minutes :

41 everybody being CIA you know everybody in the brothers are always accusing to be in CIA we now know we now know 53 Minutes :

50 in fact my friend bill Colby the former head of the CIA who was I say I stayed with when I go to Washington I think 53 Minutes :

56 he's going to do a program here for one of them local radio station he's confirmed me repeatedly now that we've 54 Minutes :

01 grown old that the CIA indeed had is 54 Minutes :

07 their fundamental pool whose people particularly prominent people in the 54 Minutes :

13 press prominent people in the world press knew that could travel internationally and have the credentials 54 Minutes :

19 and freedom that can only come from one place only one place the press the press 54 Minutes :

26 is the only one in every country in the world that has access to just everything and you can't interfere with him hmm 54 Minutes :

33 when you started press is the only one now let me let me take it further in Nebraska who was one of the key people 54 Minutes :

40 in the whole Franklin thing whether he likes to admit it or not Harold Anderson the publisher of the Omaha world only 54 Minutes :

47 major stockholders how'd Harold Anderson start out he started out in that key time when the CIA was recruiting like 54 Minutes :

52 maniacs young intelligent capable investigative reporters and he's been 54 Minutes :

58 involved in the world press scene no more than that more than that Harold 55 Minutes :

04 Anderson is the only person in the history of the United States in the history of the world to have been 55 Minutes :

10 president I believe both the World Press Association and the National Press oh so 55 Minutes :

16 tight forget the exact names only one in the history I mean this this man is mr. 55 Minutes :

21 big on the International and national scene those are the kinds of people who were top top top CIA operatives during 55 Minutes :

31 the critical years of the 60s the 70s and the 80s during the most intense Cold 55 Minutes :

37 War period of all that was our army that was our war machine hmm and so remote 55 Minutes :

43 and wild as it sounds you start adding a piece here a piece there additional information that's poured out since 55 Minutes :

49 Franklin from-from the location of Offutt as the safest most important base 55 Minutes :

55 we have in the world the CIA factor the fact we're now 56 Minutes :

01 learning that drugs were used as one of the devices for financing our covert operations know the fact that 56 Minutes :

08 that if anybody if anybody at all was gonna be used or a top person in the CIA 56 Minutes :

14 it would be press people who maintained their cover and we're doing the best 56 Minutes :

20 thing for this country they were our they were our army they were our soldiers people like Harold Anderson so 56 Minutes :

26 am i singing Harold Anderson as a top CIA operative it opens some interesting 56 Minutes :

32 possible innos I think he knows I know yeah whether he is or is not and that 56 Minutes :

38 one's a whole I want to say the next words but I'll say I'll say he knows and 56 Minutes :

44 I know well that's a whole new area and a whole new realm to explore and as I 56 Minutes :

50 say what it sounds like Fantasyland doesn't well explain some things concerning motivation for cover-up and yeah certainly goes far beyond the local 56 Minutes :

58 scene and just some local pedophiles protecting themselves but much more than 57 Minutes :

03 that and before I've always wondered why the FBI would be so interested in something that supposedly did not cross state 57 Minutes :

10 boundaries you know say there well there's there's no evidence of child abuse the FBI says there's no evidence of these kids being transported for 57 Minutes :

17 prostitution purposes the FBI says that there's nothing to these allegations and yet they were very keenly interested in 57 Minutes :

25 dealing with witnesses trying to find out who they were intimidating them in their interrogation process and doing 57 Minutes :

32 everything they could to seemingly muddy the waters as far as any legitimate 57 Minutes :

38 investigation by the Franklin committee was concerned well as I as I pointed out I think I really offer some pretty well 57 Minutes :

43 good documentation in the book on the FBI what they've done you make your own judgments as to whether that constitutes 57 Minutes :

49 cover-up I say it does that's my belief not made-up things but documentation even involving such things as who was 57 Minutes :

57 this guy that sued the FBI in Omaha roshon what they end up paying him quietly finally no a million dollars it 58 Minutes :

04 was a million dollars plus about a half a million in legal fees right basically he was making the same allegations he 58 Minutes :

09 was an inside he was one of the FBI in Omaha right and people don't know about this the world hell didn't print big 58 Minutes :

15 stories about this the whole office seemed like it was a poopoo they paid him a million dollars 58 Minutes :

21 keep million dollars to go away shut up and be happy all right yeah well folks 58 Minutes :

27 you can find out about this by ordering the book the Franklin cover-up by John de Kamp it does do just exactly what it 58 Minutes :

35 says it tells the story of child abuse Satanism and murder in Nebraska and it 58 Minutes :

40 doesn't go into a lot of detail about the murder they're probably up to date about 15 very unusual and unexplained 58 Minutes :

49 deaths of people related to this case but you can order this book by sending 58 Minutes :

54 us nine dollars the book is $7.95 at your bookstore we'll send it to you post 58 Minutes :

59 paid for nine dollars so write to us at the address that's shown on your screen and we'll be happy to get it to you in 59 Minutes :

06 the return mail you need to read it for yourself make your own conclusions share 59 Minutes :

11 it with a friend and then we need to start generating some groundswell of grassroots indignation in this state to 59 Minutes :

19 get some things changed so that this kind of thing doesn't go on or that it doesn't happen again so by all means get 59 Minutes :

26 the book and John we surely do that appreciate your spending the time with us and we'd hope to have you back again 59 Minutes :

32 in the future at some point and as other information is developed and other facts come out and they're documented and 59 Minutes :

38 become available for public consumption while we'd sure want to know about that and keep our folks updated on what's 59 Minutes :

44 going on appreciate your spending the time with us thank you river

Ted Gunderson Bio Chapter

It is important that Black Opps radio carried Ted Gundeson talking conspiracy theories. Gene Chip Tatum was a Combat Air Comptroller in Vietnam CIA connected later as well and was found dead on a beach in Panama with his face ripped off after months of torture.

In his introduction to the Nebraska Leadership report on the Franklin Scandal he blamed George H.W. Bush for Gunderson wrote the Franklin case being handled by his close (CIA) friends Colby and DeCamp were similar to the McMartin Case he researched in Los Angeles the McMartin Case. These two cases he was led to to by the death of Jefery McDonald's wife, that wife had Bordeline Personalithy disorder and a secret history tied to a family artificat. James Donegan my father was not volatile his wife Glorian Donegan was as McDonald's wife was. Gunderson writes at these two youtch schools eugenics are covertly being studied and the youth "stolen" to be moved around the world by the CIA.

This is based on what he and others have reported and interviews with him still available and speeches by him and some constructive guess work.

Ted Gunderson's brother perhaps and mosty likely older brotehr died as a bomber pilot or something like that probably in WWII and he says so in his Grenada Forum speech. Possibe overlaps. Robert McNamara was closely tied to bomber operations in selectiong manufacturing to be destroyed in Europe. Col Prouty and James Paul Donegan and perhaps General Lansdale or Charles Cabell or other CIA may have worked with Ted Gunderson's brother.

In 1951 Gudnerson was both a college grad and working for Hormell somewhere in the midwest and is selected under-age to work for the FBI by J. Edgar Hoover directly. It is at this time Grace Ranch formerly run by Peter Licavoli as a racing horse operatoin becomes a WWII surplus airplane redisign spot as Latin American pro USA forces are secretly supplemanted by the CIA. As 1952 and the COld War approaches these operations are being operationaly headaquartered at the Japanese island group including Okinawa that was gained as an Allied facility with the uncionditional surrender of Japan. In WWII Lovett Jr. and others incuding E. Howard Hunt will operate out of that area in Asia Tokyo Soviet Uniion Guatamala Indonesia CIA operations with both Prouy and Donegan present among many others.

As time goes by Gunderson is working atomic energy cases and counter-espionage tied to Los Alamos and other senstive atomic areas. Some of this could have incuded breifng James Paul Donegan that the future wife he met reencating Battle of Britain had a background from her mother Mariak Kutschera that needed to be be hidden.

By 1961 Ted Gundeeron is working for Robert F. Kennedy and I think helping shut down V.P. Nixon's CIA mafia that included both Jack Ruby and Jimmy Hoffa since 1946 on when Nixon began with the CIA as a Los Angeles US Congresional house representative the District 12.

In 1963 Gunderson becomes part of the FBI operation researching the Kennedy assasination. Neither he NOR Robert F. Kennedy might then know too many details but it does at least later seem to tie to the Family Jewel NWO program and Eugenics carried out in McMartin School and Franklin Nebrasa. William Colby and Gene Chip Tatum back him up and Col Prouty makes the same assertion.

This group of people is interesting. On camera with Gunderson Combat Controller CIA operative Gene Chip Tatum explains with Gunderson the fact of his CIA background became public record in a divorce and now is defacto declassified. Prouty explains he was military, needed no CIA clearlance and did not apply or want any thus was not bound by that nest of secret operations. Wiliam Colby was appoingted a CIA director and much of his backround later declaissified and part of formla bio material. John Decamp was similar explaining is recruitment ot work for Colby and as defacto CIA discloure as a CIA adjuct at least.

I have quouted Gunderson from RUDY2 quoting Gunderson asserting Gang Stalking does exist, it is vigilantism run very powerfull people and include poisoning both biological and radiological, and break-ins, kidnapping, and murders of law enforcement intestigators and murder of journliasts and murders of children, most of which is now public record and Gunderson asserst William Colbt was silenced by a CIA hit. John Decamp speculates without have been told anything by any assasinst Gunderson and others were probably right, Colby was assasintated to cover the Family Jewels program. Since then I Ed Donegan and Jen Moore assert many more wetidivision hits as the CIA continues its covert mafia groups front groups that operate under cover for political elites.

On the down-side Gunderson said in a possibel missunderstanding of relocation assistance paid out that children in Eugenics programs run by the NWO were sold from real parents into international slavery. The better guess is those in orphanages had real parents of secret identities and if the passed a threshold were welcomed into the NWO cabal by officials at the highest level (Bush White House) and others were killed or smeared or destroyed for fear their identity if found out jepordized the ones (children) beign place into Deep Cover around the world. No one likes killing children on the other had a captured US Spy somewhere in deep cover could bring extreme danger to the USA. The CIA uses deranged people to kill not the polished James Bond types, and even if the polished rather than drug or biker gangs or satanic gangs the polished will likely think of it as a command decison, as was the case of the CIA operative who asserts he did not like assasinating women by Marilyn Monroe by being a risk to the USA had to be silenced. Jen Moore asserts all who are a risk to the Deep Stat herself inlcude will be silencedy by Gang Stalk teams, those team her and Ed Donegan have been gathering proof about.
